

An impressionist painting of a landscape, likely a coastal scene, featuring a central sun-like motif with radiating rays. The colors are vibrant and textured, with a focus on light and color. The sun is depicted as a bright, glowing orb in the center, surrounded by a halo of yellow and orange. The sky is filled with various shades of blue, green, and purple, suggesting a sunset or sunrise. The water below is a mix of blue and green, with visible brushstrokes. The foreground shows a rocky shore with green foliage.

Beckett,1996 Richard Sakwa's *Russian Politics and Society* is the most comprehensive study of Russia's post communist political development. It has since its first publication in 1993 become an indispensable guide for all those who need to know about the current political scene in Russia about the country's political stability and about the future of democracy under its post communist leadership. For this second edition Richard Sakwa has updated the text throughout and restructured its presentation so as to emphasize the ongoing struggle for stability in Russia over the last five years. This edition includes the full text of the constitution of 1993, new material on recent elections, the new parliament, State Duma and Federation Council, the development of the presidency and an evaluation of the country's political evolution during the 1990s, up to date details on the development of a federal system and on local government and a thoroughly updated bibliography.

The Enigma of Good and Evil: The Moral Sentiment in Literature Anna-Teresa Tymieniecka,2006-08-27 Striking toward peace and harmony the human being is ceaselessly torn apart in personal, social, national life by wars, feuds, inequities and intimate personal conflicts for which there seems to be no respite. Does the human condition in interaction with others imply a constant adversity? Or is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person? To what criteria should I refer for appreciation, judgment, direction concerning my attitudes and my actions as they bear on the well being of others? At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts. Literature which in its very gist dwells upon disentangling in multiple perspective the peripeteia of our life experience offers us a unique field of source material for moral and ethical investigations. Literature brings preeminently to light the Moral Sentiment which pervades our life with others, our existence tout court. Being modulated through the course of our experiences, the Moral Sentiment sustains the very sense of literature and of personal human life. Tymieniecka

Discoveries in the Judaean Desert XXXVII Émile Puech,2008-12-04 This volume in French contains the editio princeps of the second part 4Q550-583 of the Aramaic texts from Cave 4 at Qumran which were originally assigned to Pere Jean Starcky 4Q521-578. The first part of the Aramaic texts were published in volume XXXI of the *Discoveries in the Judaean Desert* series while the Hebrew texts were published in volume XXV. These Aramaic and Hebrew texts include primarily parabiblical and pseudepigraphical compositions often named Apocryphon Testament Pseudo or Visions. They reflect the interest in biblical themes characteristic of Second Temple period Judaism and exhibited in many of the Qumran compositions.

Autour de la géographie Orientale, et au-delà Laurence Denooz,Xavier Luffin,2006 Le Professeur Jacques Thiry a enseigné l'arabe et la critique historique de textes arabes médiévaux à l'Université Libre de Bruxelles jusqu'en 2005. Son domaine de recherche privilégié fut incontestablement l'histoire et la géographie de la région saharienne. À travers ce recueil, ses collègues orientalistes belges tentent de rendre hommage à son travail en lui offrant les résultats de leurs recherches. Le fil conducteur de cet ouvrage est la géographie, thème cher au professeur Jacques Thiry, mais d'autres sujets sont également abordés : la dialectologie et la philologie arabes.

certaines aspects de l'islam et même l'histoire coloniale belge Nous avons également tenu à rassembler autour de ce travail spécialistes du monde arabo musulman et spécialistes de l'Orient ancien témoignant ainsi de l'activité des orientalistes belges dans leur ensemble
