 analysis choice and implementation To pass candidates need both technical knowledge and the ability to apply their
 knowledge to specific scenarios The syllabus is split into four areas Interacting with the Competitive Environment 20%
 Change Management 20% Evaluation of Strategic Options 30% Implementation of Strategic Plans 30% The first section
 explores the impact and influence of an organisation s environment on its strategy An organisation needs to take account of
 its environmental context as well as its own internal capabilities when assessing the strategic options available to it Having
 identified these options it then has to evaluate them to decide which is the most appropriate to pursue The E3 syllabus
 recognises that implementing strategic plans involves managing change and 20% of the syllabus is now devoted to issues
 involved in managing the change process Change Management has not previously been examined at Strategic Level in the
 CIMA exams The final section of the syllabus looks at the ways organisations control and measure the performance of the
 strategies they have implemented The E3 Study Text provides you with comprehensive coverage of the principles of business
 strategy and how they can be applied to design and implement enterprise strategies The Text also offers a range of short
 case studies which illustrate how business strategy ideas are applied in the real world In the E3 exam your ability to apply
 knowledge to a scenario is as important as pure knowledge but it is still crucial to have a sound understanding of the key
