skies and their subsequent careers a Japanese scientist discovers a striking change in the blood of pregnant women at sunrise recent health surveys reveal a definite solar influence on the health and sickness of thousands of people These are just a few of the findings of scientists of international repute discussed in this fascinating book Esoteric Astrology for the New Age, Vol 1: The Esoteric Foundations Bodo Balsys,2023-09-14 There is a vast amount of esoteric information to further present to the world s disciples In the field of astrology this is especially needed The information here is based upon Alice Bailey s Esoteric Astrology and extends this work with additional esoteric information This is in line with what I have already published in my former books and presents a line of esoteric reasoning that most students of this doctrine have yet to discover These astrological volumes are the foundation for many revelations to come This volume presents the basis to comprehending the vast reaches of this science For enlightened beings astrological knowledge is the lore of the universe and this astrology governs the manifestation of cosmic Law The evolution of humanity is a progression and so also the evolutionary attainment of Hierarchy Hierarchy must move with the times and offer disciples more advanced esoteric lore and their higher scientific verities than was possible before This is one such presentation from the vast store of Hierarchical ken that hopefully many will gain succour from **Fundamentals of Astrology** M. Ramakrishna Bhat,2013-01-01 Astrology is both Science and Art Hence only the talented can appreciate and understand it Rightly Visnugupta declares that nobody other than a sage can master the ocean like science of astrology The great Varahamihira declares No sin will creep into a place that is sanctified by the presence of a true astrologer No person who studies and divines the course of destiny will ever be found in hell but will reside permanently in the world of Brahman This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings and gives a spiritual bias to astrology The reader is taken step by step in this work from the rudiments Viz the distribution of constellations in the Zodiacal belt which is divided into twelve Signs and the planetary hierarchy through the method of calculating the ascendant and other houses of a natal chart assessment of the strengths influences aspects affliction mutual relations etc of the planets to the final stage of reading the brighter and darker sides of the subject s life his chances of success and failure their periods ingress of the soul into the mortal coil and exit there form as well as its departure to other worlds according to its karma In this book an attempt has been made to give a good account of the science of astrology with a view to making the reader a good and true astrologer It also shows that astrology does not make a man a fatalist helpless automation in the hands of a merciless Fate It should on the other hand help him to take to self exertion and self help This hoary lore according to the author is to be practised not for selfish ends but to guide the needy and the distressed to remove the cause of their suffering and to turn their attention towards God *Astrology* Merinda Fallager, In the vast expanse of the universe there exists an intricate dance of celestial bodies that has captivated humanity for millennia This dance known as astrology offers a profound lens through which we can perceive the

interconnectedness between the cosmos and our own lives At its core astrology is a symbolic language that enables us to decode the mysteries of existence understand our place in the cosmos and align with the rhythms of the universe The concept of astrology traces back to ancient civilizations who gazed upon the night sky with wonder and awe seeking to discern patterns and meaning in the movements of the stars and planets Over time this intuitive exploration evolved into a sophisticated system of knowledge encompassing diverse traditions and philosophies from cultures around the world At the heart of astrology lies the idea that the positions and alignments of celestial bodies at the moment of our birth influence our personalities behaviors and life experiences By mapping the positions of the planets in relation to the zodiac signs and houses astrologers create a unique cosmic snapshot known as a birth chart or natal chart This chart serves as a personalized guide revealing the inherent qualities potentials and challenges encoded within our individual destinies
