Fox New Special Report:

The Loudest Voice in the Room Gabriel Sherman, 2017-02-14 A revelatory journey inside the world of Fox News and Roger Ailes the brash sometimes combative network head who helped fuel the rise of Donald Trump NEW YORK TIMES BESTSELLER NOW A SHOWTIME LIMITED SERIES NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR When Rupert Murdoch enlisted Roger Ailes to launch a cable news network in 1996 American politics and media changed forever With a remarkable level of detail and insight Vanity Fair magazine reporter Gabriel Sherman puts Ailes's unique genius on display along with the outsize personalities Bill O'Reilly Sean Hannity Megyn Kelly Sarah Palin Karl Rove Glenn Beck Mike Huckabee Gretchen Carlson Bill Shine and others who have helped Fox News play a defining role in the great social and political controversies of the past two decades From the Clinton Lewinsky scandal to the Bush Gore recount from the war in Iraq to the Tea Party attack on the Obama presidency Roger Ailes developed an unrivaled power to sway the national agenda Even more he became the indispensable figure in conservative America and the man any Republican politician with presidential aspirations had to court How did this man become the master strategist of our political landscape In revelatory detail Sherman chronicles the rise of Ailes a frail kid from an Ohio factory town who through sheer willpower the flair of a showman fierce corporate politicking and a profound understanding of the priorities of middle America built the most influential television news empire of our time Drawing on hundreds of interviews with Fox News insiders past and present Sherman documents Ailes's tactical acuity as he battled the press business rivals and countless real and perceived enemies inside and outside Fox Sherman takes us inside the morning meetings in which Ailes and other high level executives strategized Fox's presentation of the news to advance Ailes's political agenda provides behind the scenes details of Ailes's crucial role as finder and shaper of talent including his sometimes rocky relationships with Fox News stars such as O'Reilly Hannity and Carlson and probes Ailes's fraught partnership with his equally brash and mercurial boss Rupert Murdoch Roger Ailes's life is a story worthy of Citizen Kane Featuring an afterword about Ailes's epic downfall during the extraordinary 2016 election *The Loudest Voice in the Room* is an extraordinary feat of reportage with a compelling human drama at its heart

The Nightly News Nightmare Stephen J. Farnsworth, S. Robert Lichter, 2011 Numerical analysis presents different faces to the world For mathematicians it is a bona fide mathematical theory with an applicable flavour For scientists and engineers it is a practical applied subject part of the standard repertoire of modelling techniques For computer scientists it is a theory on the interplay of computer architecture and algorithms for real number calculations The tension between these standpoints is the driving force of this book which presents a rigorous account of the fundamentals of numerical analysis of both ordinary and partial differential equations The point of departure is mathematical but the exposition strives to maintain a balance between theoretical algorithmic and applied aspects of the subject In detail topics covered include numerical solution of ordinary differential equations by multistep and Runge Kutta methods finite difference and finite elements

techniques for the Poisson equation a variety of algorithms to solve large sparse algebraic systems methods for parabolic and hyperbolic differential equations and techniques of their analysis The book is accompanied by an appendix that presents brief back up in a number of mathematical topics Dr Iserles concentrates on fundamentals deriving methods from first principles analysing them with a variety of mathematical techniques and occasionally discussing questions of implementation and applications By doing so he is able to lead the reader to theoretical understanding of the subject without neglecting its practical aspects The outcome is a textbook that is mathematically honest and rigorous and provides its target audience with a wide range of skills in both ordinary and partial differential equations Bush's War Jim A. Kuypers, 2006-10-10

Immediately after the attacks of September 11 2001 Americans looked to President Bush for words of leadership In his most formal reply of the day he said Today our fellow citizens our way of life our very freedom came under attack in a series of deliberate and deadly terrorist acts The victims were in airplanes or in their offices secretaries businessmen and women military and federal workers moms and dads friends and neighbors Thousands of lives were suddenly ended by evil despicable acts of terror The stark tone of Bush's speech suggested the promise of more words to come from the president and it is these words that Bush's War addresses While many books have offered a take on the attacks of 9/11 and their impact upon American society one area has been comparatively ignored presidential justifications for war in the age of terrorism Specifically what did President Bush say to justify American military actions in the post-9/11 world And how did the public hear what he said especially as it was filtered through the news media The eloquent and thoughtful Bush's War shows how public perception of what the president says is shaped by media bias Jim A Kuypers compares Bush's statements with press coverage arguing that the nature of American public knowledge concerning our role in the world has been changed—not by 9/11 but by the subsequent argumentative back and forth between Bush and the press **Investigating the President**

Douglas L. Kriner, Eric Schickler, 2016-08-23 Although congressional investigations have provided some of the most dramatic moments in American political history they have often been dismissed as mere political theater But these investigations are far more than grandstanding Investigating the President shows that congressional investigations are a powerful tool for members of Congress to counter presidential aggrandizement By shining a light on alleged executive wrongdoing investigations can exert significant pressure on the president and materially affect policy outcomes Douglas Kriner and Eric Schickler construct the most comprehensive overview of congressional investigative oversight to date analyzing nearly thirteen thousand days of hearings spanning more than a century from 1898 through 2014 The authors examine the forces driving investigative power over time and across chambers identify how hearings might influence the president's strategic calculations through the erosion of the president's public approval rating and uncover the pathways through which investigations have shaped public policy Put simply by bringing significant political pressure to bear on the president investigations often afford Congress a blunt but effective check on presidential power without the need to worry about veto

threats or other hurdles such as Senate filibusters In an era of intense partisan polarization and institutional dysfunction Investigating the President delves into the dynamics of congressional investigations and how Congress leverages this tool to counterbalance presidential power **Narratives of Storytelling across Cultures** Tony R. DeMars, Gabriel B.

Tait, 2019-09-18 Narratives of Storytelling Across Cultures demonstrates how meaning found within interpersonal communication is not universal across all cultures Miscommunication can occur when the foundations of cultural meaning within stories as told socially and within media vary among different cultures Positioned within the communication and media field this book connects issues of societal tension and political battles to media portrayals social communication events and power dynamics that result when people with different meanings systems attempt to negotiate truth among their competing narratives After establishing the theoretical foundation of the book contributors provide specific case studies that demonstrate underlying cultural components and complexities that lead to these issues Tony R DeMars and Gabriel Tait have assembled contributors with research experience and understanding of intercultural communication challenges in different social groups allowing the book to take on a broader scope of intercultural communication Scholars of communication conflict resolution political science sociology and media studies will find this book particularly useful **American**

Gridlock James A. Thurber, Antoine Yoshinaka, 2015-11-12 American Gridlock brings together the country's preeminent experts on the causes characteristics and consequences of partisan polarization in US politics and government with each chapter presenting original scholarship and novel data This book is the first to combine research on all facets of polarization among the public both voters and activists in our federal institutions Congress the presidency and the Supreme Court at the state level and in the media Each chapter includes a bullet point summary of its main argument and conclusions and is written in clear prose that highlights the substantive implications of polarization for representation and policy making Authors examine polarization with an array of current and historical data including public opinion surveys electoral and legislative and congressional data experimental data and content analyses of media outlets American Gridlock's theoretical and empirical depth distinguishes it from any other volume on polarization Reform Fred Allen, 2020-09-02 Book Delisted

A Beautiful America Thomas R. Meinders, 2010-12 This book will make some people smile some laugh some will agree some will disagree some might cry and some will think I am crazy The purpose is to make people think about what is happening in our government A Beautiful America is going to look at some of the things that we can do to return our country to America the Beautiful It will not be easy but nothing that is worth fighting for ever is There are areas of the United States that have been over run with illegals and drugs that need our help America can return to the great country it once was and still should be We need to understand the problems that we are facing and take action to correct them The politicians of America have not been doing their jobs for the last several decades We can make sure that every representative acts in the best interest of the entire United States and the citizens *Left Turn* Tim Groseclose, 2011-07-19 A leading political scientist

provides a rigorous and revealing analysis of liberal media bias I m no conservative but I loved Left Turn Steven Levitt author of Freakonomics Dr Tim Groseclose a professor of political science and economics at UCLA has spent years constructing precise quantitative measures of the slant of media outlets He does this by measuring the political content of news as a way to measure the PQ or political quotient of voters and politicians Among his conclusions are i all mainstream media outlets have a liberal bias and ii while some supposedly conservative outlets such the Washington Times or Fox News Special Report do lean right their conservative bias is less than the liberal bias of most mainstream outlets Groseclose contends that the general leftward bias of the media has shifted the PQ of the average American by about 20 points on a scale of 100 the difference between the current political views of the average American and the political views of the average resident of Orange County California or Salt Lake County Utah With Left Turn readers can easily calculate their own PQ to decide for themselves if the bias exists This timely much needed study brings fact to this often overheated debate **Presidential**

Takedown Paul Elias Alexander,Kent Heckenlively,2022-11-15 An explosive behind the scenes look at Donald Trump s final months in office and how the COVID crisis response was a carefully crafted plan to ruin him In January 2020 Donald Trump was on the fast track to an easy re election While his first two years had been stymied by House Speaker Paul Ryan Senate Majority Leader Mitch McConnell and the Democrats his third year had been one of remarkable success The United States had low unemployment and was making strides across the globe The president s rallies were well attended and he was being projected to win four hundred electoral votes and about forty five states Then came COVID 19 Dr Paul Elias Alexander former Senior Advisor to COVID Pandemic policy in the US government for President Trump and former COVID Pandemic evidence synthesis advisor to WHO PAHO was on the frontlines to watch how Trump s world and his reelection hopes slowly collapsed leading up to November 2020 due to the CDC NIH and WHO conspiring to overthrow him with the worst response possible to the COVID crisis Supported by emails and documents career epidemiologist Alexander and New York Times bestselling author Kent Heckenlively JD will not only show proof of a presidential takedown but also of the personal vendetta of the CDC and HHS against Alexander himself From unnecessary lockdowns school closures and mask mandates to the dismissal of effective treatments like hydroxychloroquine ivermectin and vitamin D and even threats against President Trump and his family Presidential Takedown How Anthony Fauci the CDC NIH and the WHO Conspired to Overthrow President Trump is the inside story of what really happened from those first COVID 19 reports to President Trump s loss in November

Television and the War in Ukraine Aaron Hyzen,Kaarle Nordenstreng,Svetlana Pasti,Hilde Van den Bulck,2024-12-15 Focusing on the first two months after the Russian invasion of Ukraine on February 24 2022 this book presents quantitative and qualitative analyses of the main television news coverage of the war in 11 countries across the geopolitical spectrum Contributors discuss coverage by Russia s Vremya Brazil s Globo Jornal Nacional India s DD The News China s CCTV News South Africa s SABC News Qatar s Al Tase ah Finland s YLE News UK s BBC News Germany s ARD Tagesschau Italy s RAI

TG1 and US cable and broadcast network news By selecting countries from across the geopolitical landscape and using a common methodological framework for a quantitative and qualitative analysis of the news in each country contributors are able to draw clear comparisons and contrasts throughout the book The analyses reveal both common and nation specific themes and angles demonstrating an unfettered relationship between news media and government and identifying geopolitical tensions and allegiances Along with a substantive introduction methodological framework conclusion and reflective epilogue the collective chapters in this book consider how these cases speak to perennial issues across the globe

Obama, the Media, and Framing the U.S. Exit from Iraq and Afghanistan Erika G. King, 2016-05-23 Situating Obama's end of war discourse in the historical context of the 2001 terrorist attacks Obama the Media and Framing the U S Exit from Iraq and Afghanistan begins with a detailed comparison with the Bush war on terror security narrative before examining elements of continuity and change in post 9 11 elite rhetoric Erika King deftly employs two case studies of presidential and media framing the weeks surrounding the formal announcements of Obama's December 2009 surge then exit strategy from Afghanistan and the end of combat operations in Iraq in August 2010 to explore the role of mass media in presenting presidential narratives of war and finds evidence of an interpretive disconnect between the media and a president seeking to present a more nuanced approach to keeping America safe Eloquently scrutinizing Obama's discourse on the U S exit from two post 9 11 wars and contrasting the presidential endgame frame with the U S mainstream media's narratives of the wars meaning accomplishments and denouement provides a unique combination of qualitative content analysis and topical case studies and makes this volume an ideal resource for scholars and researchers grappling with the complicated and ever evolving nexus of war the president and the media

The Tea Party and the Remaking of Republican Conservatism

Theda Skocpol, Vanessa Williamson, 2012-01-02 This revised edition features a new afterword updated through the 2016 election On February 19 2009 CNBC commentator Rick Santelli delivered a dramatic rant against Obama administration programs to shore up the plunging housing market Invoking the Founding Fathers and ridiculing losers who could not pay their mortgages Santelli called for Tea Party protests Over the next two years conservative activists took to the streets and airways built hundreds of local Tea Party groups and weighed in with votes and money to help right wing Republicans win electoral victories in 2010 In this penetrating new study Harvard University's Theda Skocpol and Vanessa Williamson go beyond images of protesters in Colonial costumes to provide a nuanced portrait of the Tea Party What they find is sometimes surprising Drawing on grassroots interviews and visits to local meetings in several regions they find that older middle class Tea Partiers mostly approve of Social Security Medicare and generous benefits for military veterans Their opposition to big government entails reluctance to pay taxes to help people viewed as undeserving freeloaders including immigrants lower income earners and the young At the national level Tea Party elites and funders leverage grassroots energy to further longstanding goals such as tax cuts for the wealthy deregulation of business and privatization of the very same Social

Security and Medicare programs on which many grassroots Tea Partiers depend Elites and grassroots are nevertheless united in hatred of Barack Obama and determination to push the Republican Party sharply to the right The Tea Party and the Remaking of Republican Conservatism combines fine grained portraits of local Tea Party members and chapters with an overarching analysis of the movement s rise impact and likely fate A Cognitive Psychology of Mass Communication Fred Sanborn,2022-09-13 The eighth edition of this text remains an indispensable resource for mass communication psychology and media effects courses This book gives readers an in depth understanding of how media affect our attitudes thinking and behavior Continuing its academically rigorous yet student friendly approach to this subject the new edition has been thoroughly updated to reflect our current media landscape Updates include new research and examples for an increasingly global perspective an increased focus on social media additional graphics special end of chapter application sections and an expansion in the list of references to reflect the latest research discussed The book continues to emphasize the power of media including social media in affecting our perceptions of reality There is also a detailed discussion of misinformation disinformation and fake news Written in an engaging readable style the text is appropriate for graduate or undergraduate students in media psychology mass communication psychology and media effects courses Accompanying online resources are also available for both students and instructors For students chapter outlines additional review and discussion questions useful links and suggested further reading For instructors lecture slides guidelines for in class discussions a sample syllabus chapter summaries useful links and suggested further reading Please visit www.routledge.com/9780367713553 **This Was CNN** Kent Heckenlively,Cary Poarch,2023-02-07 A CNN insider reveals what he saw behind the scenes at the cable news giant and the investigation that revealed even more shocking secrets Cary Poarch started working at CNN in the summer of 2017 as a die hard Bernie Sanders supporter But on his first location shoot during the Charlottesville riots he quickly became disillusioned with how the network created the fine people hoax This began a political odyssey as he documented numerous incidents of outright bias eventually leading him to contact James O Keefe of Project Veritas For months Cary Poarch documented CNN s rampant political bias for Project Veritas and saw how the network was dividing the country When the story was released by Project Veritas it was seen by millions This book continues his investigation and uncovers even more shocking information about the behavior of network personnel CNN s ties to the Biden White House CNN s creation of a terrifying digital warfare capacity and the possible penetration of CNN by our own intelligence agencies Cary partnered with two time New York Times bestselling author Kent Heckenlively and together they uncovered even more shocking secrets about the most trusted name in news **In Trump We Trust** Ann Coulter,2016-08-23 Donald Trump won the presidency by being a one man wrecking ball against our dysfunctional and corrupt establishment Now Ann Coulter with her unique insight candor and sense of humor makes the definitive case for why we should all join his revolution The media have twisted themselves in knots trying to grasp how Donald Trump won over millions of Americans and what he ll be like as

president But Ann Coulter isn't puzzled She knows why Trump was the only one of seventeen GOP contenders who captured the spirit of our time She gets the power of addressing the pain of the silent majority and saying things the PC Thought Police considers unspeakable She argues that a bull in the china shop is exactly what we need to make America great again In this powerful book Coulter explains why conservatives moderates and even disgruntled Democrats should set aside their doubts and embrace Trump He's putting America first in our trade deals and alliances rather than pandering to our allies and enemies He's abandoned the GOP's decades long commitment to a bellicose foreign policy at a time when the entire country is sick of unnecessary wars He's ended GOP pandering to Hispanic activists with his hard line policy on immigration Working class Americans finally have a champion against open borders and cheap foreign labor He's overturned the media's traditional role in setting the agenda and defining who gets to be considered presidential He's exposed political consultants as grifters and hacks most of whom don't know real voters from a hole in the ground If you're already a Trump fan Ann Coulter will help you defend and promote your position If you're not she might just change your mind Ohio's Kingmaker William T. Horner, 2010-03-04 For a decade straddling the turn of the twentieth century Mark Hanna was one of the most famous men in America Portrayed as the puppet master controlling the weak willed William McKinley Hanna was loved by most Republicans and reviled by Democrats in large part because of the way he was portrayed by the media of the day Newspapers and other media outlets that supported McKinley reported positively about Hanna but those sympathetic to William Jennings Bryan the Democrats presidential nominee in 1896 and 1900 attacked Hanna far more aggressively than they attacked McKinley himself Their portrayal of Hanna was wrong but powerful and this negative image of him survives to this day In this study of Mark Hanna's career in presidential politics William T Horner demonstrates the flaws inherent in the ways the news media cover politics He deconstructs the myths that surround Hanna and demonstrates the dangerous and long lasting effect that inaccurate reporting can have on our understanding of politics When Karl Rove emerged as the political adviser to George W Bush's presidential campaigns the reporters quickly began to compare Rove to Hanna even a century after Hanna's death The two men played vastly different roles for the presidents they served but modern reporters consistently described Rove as the second coming of Mark Hanna another political Svengali Ohio's Kingmaker is the story of a fascinating character in American politics and serves to remind us of the power of misperceptions See No Evil Joel Pollak, 2016-07-25 Liberals take great pride in their supposed open mindedness Yet when it comes to hot button issues like radical Islam global warming and abortion open minded liberals go to great lengths to discredit and suppress the ideas of their opponents Breitbart senior editor Joel Pollak exposes the nineteen key ideas that today's liberals are desperate to suppress revealing the blatant hypocrisy of left wing leaders and pundits who preach tolerance but practice intolerance

Misstating the State of the Union Mediamatters.org, Media Matters Action Network, 2004 Best selling author David Brock leads an analysis of right wing media distortions Targeting Terrorists Avery Plaw, 2016-04-01 Targeting Terrorists

A License to Kill examines the political history and ethics of targeted killing. Avery Plaw's analysis addresses the questions of moral, political, and legal justification in the context of the current war on terror and of legitimate/illegitimate forms of counterterrorism more generally. Given the increasing number of terrorist targetings conducted around the world today and the virtual absence of a sustained public and scholarly debate over the practice, this study makes a crucial contribution to the examination of an increasingly important and troubling subject. Incorporating insights and arguments from a range of disciplines and approaches and offering an excellent balance between theory and case studies, this book is highly relevant for courses on ethics, politics, international relations, and international law.
