

Telehealth Policies and Federally Qualified Health Centers

FQHC FACT SHEET

Fall 2022

With support from the National Association of Community Health Centers (NACHC) through funding from the Health Resources and Services Administration (HRSA), the Fall 2022 Edition of the Center for Connected Health Policy's (CCHP) Telehealth summary report and Policy Finder tool have a new category for each state on federally qualified health centers' (FQHCs) telehealth Medicaid fee-for-service policy. As is the case for Medicaid telehealth policy in general, the manner in which state Medicaid programs address telehealth reimbursement for FQHCs, and therefore enable them to incorporate telehealth into their clinics, varies widely by state.

Methodology

- State Medicaid manuals, administrative codes, and manuals for fee-for-service policies were reviewed between July and early September 2022.
- CCHP only counts states as providing reimbursement if official and explicit Medicaid documentation was found confirming they are reimbursing FQHCs specifically for a certain modality. A broad statement that all providers are reimbursed or any originating site is eligible without an explicit reference to FQHCs was insufficient.
- COVID-19 emergency policies are not included in CCHP's reporting. Only permanent policies are accounted for.
- A state Medicaid program was counted as reimbursing FQHCs even if they do so in a very limited way, such as only for mental health.

Key Findings

Definition of Encounter/Visit & Same Day Encounters

The majority of Medicaid programs do provide a definition for a FQHC 'encounter' or 'visit' that stipulates that it is a face-to-face interaction. This does not necessarily preclude use of telehealth, as live video can also be considered 'face-to-face'. In fact, some Medicaid programs do specify in their definition of an encounter/visit that a telehealth would qualify as a visit.

EXAMPLE:

OREGON is a rare example of a state that defines an encounter as face-to-face, which includes a two-way audiovisual link, OR telephone contact under specific circumstances.

CALIFORNIA'S definition of a visit also includes audio-only synchronous interaction as well as asynchronous store-and-forward for certain FQHC providers.

Note that the cases of Oregon and California are rare, and most states limit their definitions to either to live video telehealth or don't explicitly reference telehealth modalities at all.

Compliance for Coding, Billing & Reimbursement, 2nd Edition Duane C. Abbey,2008-04-02 While the vast majority of providers never intend to commit fraud or file false claims complex procedures changing regulations and evolving technology make it nearly impossible to avoid billing errors For example if you play by HIPAA's rules a physician is a provider however Medicare requires that the same physician must be referred to as a supplier Even more troubling is the need to alter claims to meet specific requirements that may conflict with national standards Far from being a benign issue differing guidelines can lead to false claims with financial and even criminal implications Compliance for Coding Billing Reimbursement Second Edition A Systematic Approach to Developing a Comprehensive Program provides an organized way to deal with the complex coding billing and reimbursement CBR processes that seem to force providers to choose between being paid and being compliant Fully revised to account for recent changes and evolving terminology this unique and accessible resource covers statutorily based programs and contract based relationships as well as ways to efficiently handle those situations that do not involve formal relationships Based on 25 years of direct client consultation and drawing on teaching techniques developed in highly successful workshops Duane Abbey offers a logical approach to CBR compliance Designed to facilitate efficient reimbursements that don't run afoul of laws and regulations this resource Addresses the seven key elements promulgated by the OIG for any compliance program Discusses numerous types of compliance issues for all type of healthcare providers Offers access to online resources that provide continually updated information Cuts through the morass of terminology and acronyms with a comprehensive glossary Includes a CD ROM packed with regulations and information In addition to offering salient information illustrated by case studies Dr Abbey provides healthcare providers and
