United States. Congress. Senate. Committee on the Budget, 1983. **A Guide to Detracking Math Courses**. Angela Torres, Ho Nguyen, Elizabeth Hull Barnes, Laura Wentworth, 2023-05-03. Create a pathway to equity by detracking mathematics. The tracked mathematics system has been operating in US schools for decades. However, research demonstrates negative effects on subgroups of students by keeping them in a single math track, thereby denying them access to rigorous coursework needed for college and career readiness. The journey to change this involves confronting some long-standing beliefs and structures in education. When supported with the right structures, instructional shifts, coalition building, and educator training and support, the detracking of mathematics courses can be a primary pathway to equity. The ultimate goal is to increase more students' access to and achievement in higher levels of mathematics learning, especially for students who are historically marginalized. Based on the stories and lessons learned from the San Francisco Unified School District educators who have talked the talk and walked the walk, this book provides a model for all those involved in taking on detracking efforts: from policymakers and school administrators to math coaches and teachers. By sharing stories of real-world examples, lessons learned, and prompts to provoke discussion about your own context, the book walks you through designing and gaining support for a policy of detracked math courses, implementing the policy through practical shifts in scheduling, curriculum, professional development, and coaching, supporting and improving the policy through continuous research, monitoring, and maintenance. This book offers the big ideas that help you in your own unique journey to advance equity in your school or district's mathematics education and also provides practical information to help students in a detracked system thrive. **Health and Physical Education for Elementary Classroom Teachers**. Retta R. Evans, Sandra K. Sims, 2021-02-23. Youth Involvement in Street Gangs in California's Central Valley Huan Gao,2024-11-13 This timely insightful and data led book fills a gap in gang scholarship by examining gangs in rural areas specifically focusing on youth gang activity Incorporating information from interviews with 96 active youth gang members and associates in three of the rural counties of California s Central Valley this book provides an in depth look at youth involvement in gang life in rural settings and addresses the underlying factors leading to the socialization of rural youths into gang life The book documents the family and school life of youths living in rural communities and examines the process by which they are initiated into gang activity It discusses their roles in various street gang organizations and their gang related and non gang related illegal activities It

traces their experiences within the criminal justice system from initial contacts with the police to juvenile court and juvenile corrections. Besides extensive interviews with the youths and official records collected from local criminal justice agencies, data from more than 300 surveys of community members accompanied by extensive field research in local communities provides groundbreaking insights into a wide spectrum of issues related to gangs in rural settings. While the Central Valley of California serves as the research site for this extensive work, its findings are equally relevant to other rural areas in the United States and in the larger global context. This volume will be of pivotal interest to students, scholars, and academics in the fields of criminology, criminal justice, sociology, law, social sciences, and political sciences, as well as policymakers, criminal justice practitioners, community leaders, and advocates for gang prevention and intervention programs.
