Taiping Theology Carl S. Kilcourse,2016-09-26 This book examines the theological worldview of the Taiping Rebellion 1850-64 a Chinese revolutionary movement whose leader Hong Xiuquan 1814-64 claimed to be the second son of God and younger brother of Jesus Despite the profound impact of Christian books on Hong's religious thinking previous scholarship has neglected the localized form of Christianity that he and his closest followers created Filling that gap in the existing literature this book analyzes the localization of Christianity in the theology ethics and ritual practices of the Taipings Carl S Kilcourse not only reveals how Confucianism and popular religion acted as instruments of localization but also suggests that several key aspects of the Taipings localized religion were inspired by terms and themes from translated Christian texts Emphasizing this link between vernacularization and localization Kilcourse demonstrates both the religious identity of the Taipings and their wider significance in the history of world Christianity

Opportunity in Crisis Steven B. Miles, 2022-03-07 Opportunity in Crisis explores the history of late Qing Cantonese migration along the West River basin during war and reconstruction and the impact of those developments on the relationship between state and local elites on the Guangxi frontier By situating Cantonese upriver and overseas migration within the same framework Steven Miles reconceives the late Qing as an age of Cantonese diasporic expansion rather than one of state decline The book opens with crisis rising levels of violence targeting Cantonese riverine commerce much of it fomented by a geographically mobile Cantonese underclass Miles then narrates the ensuing history of a Cantonese rebel regime established in Guangxi in the wake of the Taiping uprising Subsequent chapters discuss opportunities created by this crisis and its aftermath and demonstrate important continuities and changes across the mid century divide With the reassertion of Qing control Cantonese commercial networks in Guangxi expanded dramatically and became an increasingly

important source of state revenue Through its reliance on Hunanese and Cantonese to reconquer Guangxi the Qing state allowed these diasporic cohorts more flexibility in colonizing the provincial administration and examination apparatus helping to recreate a single polity on the eve of China's transition from empire to nation state The Encyclopedia of Political Revolutions Jack A. Goldstone,2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history Suitable for students and interested lay readers yet authoritative enough for scholars its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in depth treatment of events and trends accompanying revolutions Includes descriptions of specific revolutions important revolutionary figures and major revolutionary themes such as communism and socialism ideology and nationalism Illustrative material consists of photographs detailed maps and a timeline of revolutions **A Companion to Chinese History** Michael Szonyi,2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras Addresses China's connections with other nations and regions and enables non specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality national identity and the environment **Understanding Non-State Actors** Eran Zohar,2023-10-24 Understanding Non State Actors aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time Understanding Non State Actors discusses the factors political social cultural technological and organizational that have both

facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study
