In addition to examining the role of the legislative and executive branches of government Theodore J Stein covers the often overlooked role of the judiciary in policymaking He addresses the ways social welfare practitioners should interpret 1 conflicting judicial rulings in cases where courts of equal jurisdiction rule differently on the same matter and 2 judicial rulings that signal significant changes in the law The book looks at politics practice and implementation and provides a historical background of social policy and social work practice plus a wealth of descriptive and analytic information concerning policymaking processes specific social policies and the effect of social policy on social programs **States of Discipline** Cemal Burak Tansel, 2017-02-08 Despite the severity of the global economic crisis and the widespread aversion towards austerity policies neoliberalism remains the dominant mode of economic governance in the world What makes neoliberalism such a resilient mode of economic and political governance How does neoliberalism effectively reproduce itself in the face of popular opposition States of Discipline offers an answer to these questions by highlighting the ways in which today s neoliberalism reinforces and relies upon coercive practices that marginalize discipline and control social groups Such practices range from the development of market oriented policies through legal and administrative reforms at the local and national level to the coercive apparatuses of the state that repress the social forces that oppose various aspects of neoliberalization The book argues that these practices are built on the pre existing infrastructure of neoliberal governance which strive towards limiting the spaces of popular resistance through a set of administrative legal and coercive mechanisms Exploring a range of case studies from across the world the book uses authoritarian neoliberalism as a conceptual prism to shed light on the institutionalization and employment of state practices that invalidate public input and silence popular resistance Community Nutrition Gail C.
