Organizational Sustainability Elia Socorro Díaz Nieto, David Israel Contreras Medina, Roberto Tuda Rivas, 2023-06-27 The book presents a new type of leadership focused on sustainable human development and organizational sustainability which is based on the self realization of the person of the leader which means the satisfaction of their needs according to the scale of Abraham Maslow through integral human development in all aspects of life Because the term leader appears to refer to anyone with the authority to confer a position with subordinates the reality within organizations has shown that a leader must go further and demonstrate commitment awareness and concern for the common good Which person has these characteristics People who have had more opportunity to develop in different areas of their being resulting in them being conceived as more educated The qualities in a person are the basis of leadership Education and practice are much more important than all hereditary and genetic codes This volume explores the various ways of making explicit the dimensions of social economic and environmental sustainability through knowledge management that addresses the identification collection processing circulation use exchange and preservation of knowledge within operating systems and the context of organizations considering issues that contribute to sustainability human and organizational where the leader is the main actor and the means is knowledge management

El futuro del turismo en Andalucía José A. López Sánchez, Serafín Jesús Cruces Montes, 2023-12-26 En este libro analizamos desde diversas perspectivas el futuro del turismo en Andalucía Partimos de la premisa de que el turismo se halla en un proceso de adaptación a las nuevas expectativas y tendencias de los viajeros impulsado entre otros motivos por los cambios generados por la pandemia La seguridad sanitaria se ha convertido en una prioridad clave para los turistas al elegir destinos y las empresas turísticas implementan medidas de seguridad cada vez más para generar confianza en el sector En este contexto el turismo sostenible emerge como un elemento crucial para el desarrollo futuro del turismo ya que la pandemia ha aumentado la conciencia sobre el impacto ambiental y social del turismo generando una mayor demanda en esta dirección En este sentido se evidencia que la tecnología continuará desempeñando un papel fundamental en el turismo con la digitalización acelerada del sector La inversión en tecnologías innovadoras será esencial para ofrecer experiencias de viaje seguras y atractivas y las administraciones públicas deben liderar este proceso La accesibilidad y la digitalización así como los diferentes nichos de turismo como el cultural industrial patrimonial etc el rural y el de montaña entre otros se presentan como cruciales para Andalucía Estos pueden actuar como motor económico local diversificar la oferta y apoyar las estrategias de desestacionalización En este sentido son cada vez más necesarios estudios sobre la valoración que los turistas tienen del factor social y su influencia en la recomendación y fidelización sobre el destino andaluz Igualmente la formación de profesionales es crucial para la planificación y gestión sostenible y para abordar las nuevas tendencias emergentes en el ámbito turístico andaluz Esto además potenciará la innovación en el sector turístico presentándose como una oportunidad para diferenciar a Andalucía de otros destinos competidores Sin embargo desafíos como la urgencia climática y energética plantean preocupaciones a corto y largo plazo para el turismo andaluz En los próximos lustros

se prev un cambio considerable en el turismo a nivel mundial y por ende en el andaluz debido a los fen menos clim ticos con competencia creciente de destinos m s al norte En este sentido la adaptaci n a la nueva realidad clim tica la promoci n del turismo de proximidad y la diversificaci n de mercados son esenciales para la supervivencia del sector a largo plazo En este libro se realiza un ejercicio de reflexi n colectiva por varios acad micos donde se replantea el modelo tur stico actual que es incompatible con los escenarios de cambio clim tico que se predicen y se indagan nuevos equilibrios que no dependan exclusivamente del aumento de turistas Library & Information Science Abstracts ,2005
