Apprentice Study Guide , Raptor Andrew Feld, 2012-02-12 Raptor the second book by the author of the widely praised Citizen is a collection of formal poems and measured free verse unified by its investigation of our ancient poetic mythic and scientific fascination with birds of prey hawks eagles owls vultures and falcons Drawing extensively on his own experience working at a raptor rehabilitation center along with a variety of sources ranging from medieval texts on falconry to the latest conservation studies of raptor anatomy and habitat Andrew Feld shows these killing birds to be mirrors for humanity as indicator species and as highly charged figures for the intersection of that which we call wild and that which we think of as domesticated or domestic and how these opposed terms apply to the imperiled natural world to our human social relations and to our most private interior selves In these poems Feld does not shy away from either the damaging world or the new more comprehensive view damage affords in its aftermath
