- The Progress Monitoring by Instructional Text Reading Level chart is intended to provide reasonable expectations for 10 months of the school year. School districts should adjust the expectations to align with their school/district requirements and professional teacher judgment.
- Each level indicates the instructional level; that is, the level that he or she can read with instructional support (e.g., text introduction). At levels A–K, the instructional level is the highest level a student can read with 90–94% accuracy and excellent or satisfactory comprehension, or 95–100% accuracy with limited comprehension. At levels L–Z, the instructional level is the highest level a student can read with 95–97% accuracy and excellent or satisfactory comprehension, or 98–100% accuracy with limited comprehension.
- The student's independent reading level will be one or two levels lower. The independent level is one at which the student can read without teacher support.
- If the student's instructional level matches the indicated level at the particular point in time, the student can be considered to be reading on grade level. If the student's level is higher, then the student can be considered to be reading above grade level. In this case, the student may be reading independently at the level.
- If a student's instructional level is lower than that indicated at the point in time, the student will need intervention. If the student is one to three levels lower, a Tier 2 intervention is needed. If the student is three+ levels lower, a Tier 3 intervention may be needed.
- At some points in time, students may be transitioning from one level to another (for example, Y/Z in month 5 of grade 7). That means the student is reading mostly at the lower level but taking on some texts at the higher level with success. For purposes of analyzing data, consider the lower level Y as reading on grade level.

Fountas And Pinnell Guided Level Progress Chart:

Reality Checks Tony Stead, 2023-10-10 Teaching comprehension with informational texts is a critical component of any reading program and one that many children struggle with as they progress through their schooling. Nonfiction can be overwhelming to young readers presenting them with complex vocabulary and a new density of information that may combine text, diagrams, pictures, captions, and other devices. *Reality Checks: Teaching Reading Comprehension with Nonfiction K-5* offers insights into why children struggle when faced with informational reading and practical concepts, skills, and strategies that help them navigate nonfiction successfully. In this book, Tony Stead provides wonderful ways to enhance children's understanding and engagement when reading for information. He outlines practical approaches to ensure all children can become confident and competent readers of nonfiction. Part one examines effective ways to teach children how to extract the information that is explicitly stated in a text. Covered are strategies such as using prior knowledge, retelling, locating specific information, and the role of nonfiction read-alouds. Part two explores interpreting information, including making connections between the text, the reader, and the outside world, making inferences, and making revisions to inferences based on reflection. Part three looks at evaluating information, assisting children in developing critical reading skills, differentiating fact from opinion, locating author bias, and identifying techniques writers use to persuade readers. Part four offers an array of practical ways to reinforce and extend children's nonfiction reading skills, including working with visual information such as maps and diagrams. It also provides pre and post assessment strategies, procedures for monitoring progress, curriculum planning ideas, and instruction on guided reading.

Reading Assessment in an RTI Framework

Katherine A. Dougherty Stahl, Michael C. McKenna, 2012-01-01 The importance of Response to Intervention has never been clearer. We strongly believe that RTI when fully implemented represents our best hope of building the kind of schoolwide framework necessary for making truly informed choices about the type and intensity of the reading instruction children receive. Our goal for this book is to offer the guidance needed to use these and other tools in an RTI framework. This is a book about the assessment component of RTI. We offer guidance and tools for gathering the information needed in an RTI framework. We have tried our best to write a book that is both practical and specific, that reflects both research and common sense that is consistent with standards and that affords guidance in the issues central to RTI.

Early Literacy Matters Carol E. Canady, Robert Lynn Canady, 2020-11-29 *Early Literacy Matters* is an innovative action guide for elementary school leaders and instructional coaches dedicated to accelerating literacy performance in the early grades when prevention of reading difficulties matters most.
