The manual is divided into five sections. Information in Section I is used to carefully identify the vehicle, its system, with a matrix layout called GM System ID. The technician can refer to Section II for additional information on the theory of operation, the troubleshooting procedures applicable to each type of GM ignition system. General Fault Code Definitions listed in Section III inform the technician which circuits need to be pinpoint tested. Section III also details the theory of operation, the circuit diagnosis of each input/output circuit. Specific Fault Code Definitions are listed by year, model, system type in Section IV.
