God Has Control:

God Jean Paul Corriveau,2021-07-31 Drawing on fundamental notions from quantum physics this book uses logic and careful reasoning to prove that God exists but not in the way most think Jean Paul Corriveau who earned degrees in mathematics and computer science explains how long held beliefs about God are all wrong After reading you ll know God is neither the source of intelligence nor consciousness and not the least involved in life and its evolution Nature has no design and intelligence is a product of evolution God is nowhere in the universe but He is its energy source There is no heaven hell or afterlife The author argues that the evolution of nature and life from the Big Bang onward is from randomness and luck There was never an intent God is the only nonphysical entity so prayers don t reach Him The relationships between God humans the universe and Earth aren t what the Bible tells us or what people think Join the author as he explores how we know God exists and what that really means

Modern Christianity Corrupted Bob Klingenberg, 2012-06-07 The roots of an insidious Religious Humanism have for some time now steadily been growing deeper and deeper and taking a firm hold in the modern Christian Church in America and across the world The lethality of this rooting is that Religious Humanism is filled with false teachings which are historically known as heresies

Divine Providence Bruce R. Reichenbach, 2016-09-08 We ask God to involve himself providentially in our lives yet we cherish our freedom to choose and act Employing both theological reflection and philosophical analysis the author explores how to resolve the interesting and provocative puzzles arising from these seemingly conflicting desires He inquires what sovereignty means and how sovereigns balance their power and prerogatives with the free responses of their subjects Since we are physically embodied in a physical world we also need to ask how this is compatible with our being free agents Providence raises questions about God's fundamental attributes The author considers what it means to affirm God's goodness as logically contingent how being almighty interfaces with God's self limitation and the persistent problems that arise from claiming that God foreknows the future Discussion of these divine properties spills over into the related issues of why God allows or even causes pain and suffering why if God is all knowing we need to petition God repeatedly and encounter so many unanswered prayers and how

miracles as ways God acts in the world are possible and knowable Throughout the author looks at Scripture and attends to how providence deepens our understanding of God and enriches our lives *No Cure No Surrender* Kenneth S.

Hobbs,2011-06 Was it really all going to end Was it really over No matter how I felt the doctor had spoken and it was time to listen Something was wrong inside my body That much I knew I had lost track of the number of hospital visits and the times I found myself in the doctor s office No matter how much I thought of the many happy times the many blessed times the times when I never wanted the mo ment to end I found myself back at the pronouncement from my doctor You have six months to live I think it s time you get things together When Ken Hobbs was diagnosed with a rare debilitating disorder his life changed drastically Soon he was struggling through therapy treatment and life in a wheelchair In the midst of this his career fell apart and his ex wife riddled him with false accusations It would have been enough to make anyone despair but Ken held tightly to his love and faith With his wife s unswerving aid his prayer partners petitions and God s unfailing faithfulness Ken discovered a new plan for his life In *No Cure No Surrender* Ken proves that no attack from the enemy is enough to stop God from working everything together for good **Lord I Am in Trouble** Omomaro Okekaro PhD,2024-03-24 We are all in need and God has purposed us for His own name sake Although He cannot allow us to fail He respects the gift of the free will that is given to humans Omomaro Okekaro interweaves scripture with his personal experiences while on an emotional odyssey that leads believers on a thoughtful journey within so that they too can walk through life with unwavering faith knowing that each step is guided by a higher purpose While sharing insights into the challenges and lessons embraced by diverse biblical characters Okekaro also offers inspiration by examining the spiritual inheritance in Christ encouraging believers to fight the good fight of faith and sharing miracles of the mouth through positive confession *Lord I Am in Trouble* is an inspiring presentation that blends uplifting stories with scripture to remind believers that they are not defined by their struggles but instead how they rise above them A raw and emotional journey through the tumultuous landscapes of life Within its pages you will find the unfiltered expressions of human experiences tales of heartache and triumph of loss and redemption of faith tested and strengthened JP Tucker PhD professor and clinical therapist **Divine Impossibility** Richard E.

Creel,2005-06-21 In this volume Richard Creel sets forth a thesis that offers a third way to approach divine impassibility Defining impassibility as imperviousness to causal influence from external factors Creel sketches a path between Aquinas and Hartshorne by asserting that once this definition is accepted one must still distinguish the various respects in which God is or is not impassible Virtually no one would dispute that the divine nature is impassible God will never cease to be God no matter what happens in creation With respect to the divine knowledge and will however there are conflicting views Creel claims that God s will is impassible because God knows everything that can be accomplished by divine power Yet unlike Aquinas Creel believes that God has this knowledge in virtue of a plenum of possibilities eternally coexistent with the divine being The absolute is not simply God but rather God plus the plenum Creel suggests that God s knowledge is passible with

respect to the contingent future actions of creatures God knows these actions therefore not in their presentiality from all eternity as Aquinas would hold but only as they happen and become actual God's will however remains immediately impassible because the divine will is ordered to possibilities not actualities God never has to wait until after we do something in order to decide his response to it He has eternally decided his response to all that we might do Ultimately God's feelings remain impassible no matter what concrete decisions human beings make because the basic intent of the divine plan for us is always achieved we exercise our freedom to choose for or against God God is impassible with respect to the divine nature divine will and divine feelings but God is passible with respect to the divine knowledge of future contingent events
