Going Public Public Architecture Urbanism And Interventions:

Going Public Robert Klanten, S. Ehmann, 2012 *Going Public* showcases the creative revival of public space in our urban and rural landscapes. The book's compelling selection of formal and informal interventions, reclamations and architecture illustrates the current scope and interest in refashioning and repurposing our built environment for public use. The objectives of the featured examples are as diverse as the projects themselves and range from inspiring communication and community experience to devising new means of gathering in and connecting to nature. Ranging from bold to subtle and from temporary to permanent, the architecture and urban design featured in *Going Public* offers inspiring and surprising interpretations of our public surroundings and natural landscapes.

The Routledge Handbook of Place Tim Edensor, Ares Kalandides, Uma Kothari, 2020-05-26 The handbook presents a compendium of the diverse and growing approaches to place from leading authors as well as less widely known scholars, providing a comprehensive yet cutting-edge overview of theories, concepts and creative engagements with place that resonate with contemporary concerns and debates. The volume moves away from purely western-based conceptions and discussions about place to include perspectives from across the world. It includes an introductory chapter which outlines key definitions, draws out influential historical and contemporary approaches to the theorisation of place and sketches out the structure of the book, explaining the logic of the seven clearly themed sections. Each section begins with a short introductory essay that provides identifying key ideas and contextualises the essays that follow. The original and distinctive contributions from both new and leading authorities from across the discipline provide a wide, rich and comprehensive collection that chimes with current critical thinking in geography. The book captures the dynamism and multiplicity of current geographical thinking about place by including both state-of-the-art in-depth critical overviews of theoretical approaches to place and new explorations and cases that chart a framework for future research. It charts the multiple ways in which place might be conceived, situated and practised. This unique, comprehensive and rich collection will be an essential resource for undergraduate and graduate teaching for experienced academics across a wide range of disciplines and for policymakers and place marketers. It will provide an invaluable and up-to-date guide to current thinking across the range of disciplines such as Geography, Sociology and Politics and interdisciplinary fields such as Urban Studies, Environmental Studies and Planning.

Arts in Place Cara Courage, 2017-02-03 This interdisciplinary book explores the role of art in placemaking in urban environments, analysing how artists and communities use arts to improve their quality of life. It explores the concept of social practice placemaking where artists and community members are seen as equal experts in the process. Drawing on examples of local-level projects from the USA and Europe, the book explores the impact of these projects on the people involved, on their relationship to the place around them, and on city policy and planning practice. Case studies include Art Tunnel Smithfield Dublin, an outdoor art gallery and community space in an impoverished area of the city; The Drawing Shed London, a contemporary arts practice operating in housing estates and parks in

Walthamstow and Big Car Indianapolis an arts organisation operating across the whole of this Midwest city This book offers a timely contribution bridging the gap between cultural studies and placemaking It will be of interest to scholars students and practitioners working in geography urban studies architecture planning sociology cultural studies and the arts

Contested Spaces
Concerted Projects Cristina F. Colombo, Jacopo Leveratto, 2022-05-18 European cultural heritage is inherently complex and layered In the past conflicting or controversial perspectives on different historical memories and experiences have been colliding in the rich cultural landscape of Europe and continue to do so in the present Contemporary projects of re activation of contentious spaces seem to challenge both the traditional design parameters and the role of spatial practitioners They require new strategies that effectively mix top down and bottom up impulses through a new design approach that is still in search of a clear definition Contested Spaces Concerted Projects collects the stories of some selected cases of difficult built heritage in order to highlight the most innovative methodologies of re activation by which architects artists designers and collectives have developed new participatory public interfaces

Universal Singular Sonia Curnier, 2022-11-21 A critical introduction to the design of public spaces The way public spaces are designed reflects the period in which they were created

However in our globalized world of experience and images the desire for uniqueness tends to achieve the opposite increasingly designers of open spaces resort to the same devices and thereby distance themselves from the urban context The author analyzes ten outstanding contemporary designs of public spaces in Europe in terms of their function in the urban context and what materials are used for their implementation In interviews with the designers she retraces the changes of the concepts during the design stage of the projects underpinning her findings with numerous sketches In addition her research focuses on how the projects were received in the community Learning from designers of outstanding public spaces in Europe Numerous unpublished design sketches A clear guide to urban design Also available in a French edition

Now Urbanism Jeffrey Hou, Benjamin Spencer, Thaisa Way, Ken Yocom, 2014-10-10 After more than a century of heroic urban visions urban dwellers today live in suburban subdivisions gated communities edge cities apartment towers and slums The contemporary cities we know are more often the embodiment of unexpected outcomes and unintended consequences rather than visionary planning As an alternative approach for rethinking and remaking today's cities and regions this book explores the intersections of critical inquiry and immediate substantive actions The contributions inside recognize the rich complexities of the present city not as barriers or obstacles but as grounds for uncovering opportunity and unleashing potential Now Urbanism asserts that the future city is already here It views city making as grounded in the imperfect messy yet rich reality of the existing city and the everyday purposeful agency of its dwellers Through a framework of situating grounding performing distributing instigating and enduring these contributions written by a multidisciplinary group of practitioners and scholars illustrate specificity context agency and networks of actors and actions in the re making of the contemporary city

Public Art in Canada Annie G  rin, James S. McLean, 2009-01-01 The rigorous essays and original works of art collected in this volume present a compelling demonstration of the strategies aesthetic and otherwise used by artists to elicit intellectual sensual or emotional responses that can only be obtained through artistic practices in public places

Cities of Opportunities Jason Pomeroy, 2020-01-31 Culture refers to not only the arts but also other manifestations of human intellectual achievement regarded collectively It similarly refers to the customs institutions and achievements of a social group a people or a nation Innovation refers to the action or process of change alteration or revolution a new method of idea creation or product that may bring about change It is easy to assume that innovation may be juxtaposed to the preservation of culture and time tested rituals Yet as human settlements grew and as streets and squares evolved through the diverse exchanges of people trading celebrating rallying and socially interacting it should come as little surprise that cities and its places would become and continue to be centres of culture and innovation that can be inextricably linked Culture and Innovation in cities can potentially take on different complexions if viewed through the lens of academics and practitioners drawn from different geographies disciplines or fields of expertise when addressing particular urban challenges It is through this complexity of views that this book seeks to provide a broad perspective on culture and innovation in the context of global cities today and a rich cornucopia of insights from thought leaders within their respective fields to shape the cities of tomorrow

Enhancement of Public Real-estate Assets and Cultural Heritage Lucia Della Spina, Francesco Calabr  , 2021-01-21 The management of cultural heritage and public real estate assets is one of the most crucial challenges concerning the sustainable use of these resources involving dynamic methods to stimulate preservation development renewal and transmission to future generations of these essential assets The contributions presented in this book provide a rich and

varied panorama of research experiences and innovative tools capable of promoting the re use of cultural heritage in European cities and cultural landscapes using a circular economy logic as a model of sustainable development From this point of view cultural capital becomes the driver of a regeneration process on the local urban and metropolitan scales in which the transversal interconnections between the production cycles of the adaptive re use of the available heritage both in the adaptation and in the management phase configure a circular process of multidimensional production of value Therefore future territorial redevelopment projects can base their idea strength on an open system of appropriately selected social attractors whose enhancement and use have the objective of triggering widespread regeneration effects on the whole territory of influence receiving inducement and resources to progress

All-Inclusive Engagement in Architecture Farhana Ferdous, Bryan Bell, 2020-12-22 Should all inclusive engagement be the major task of architecture All Inclusive Engagement in Architecture Towards the Future of Social Change presents the case that the answer is yes Through original contributions and case studies this volume shows that socially engaged architecture is both a theoretical construct and a professional practice navigating the global politics of poverty charity health technology neoliberal urbanism and the discipline s exclusionary basis The scholarly ideas and design projects of 58 thought leaders demonstrate the architect s role as a revolutionary social agent Exemplary works are included from the United States Mexico Canada Africa Asia and Europe This book offers a comprehensive overview and in depth analysis of all inclusive engagement in public interest design for instructors students and professionals alike showing how this approach to architecture can bring forth a radical reformation of the profession and its relationship to society
