**The Laws of the Gold Coast (including Togoland Under British Mandate)** Gold Coast,1937 *Fires of Gold* Lauren Coyle Rosen,2020-04-21 Fires of Gold is a powerful ethnography of the often shrouded cultural legal political and spiritual forces governing the gold mining industry in Ghana one of Africa s most celebrated democracies Lauren Coyle Rosen argues that significant sources of power have arisen outside of the formal legal system to police adjudicate and

navigate conflict in this theater of violence destruction and rebirth These authorities or shadow sovereigns include the transnational mining company collectivized artisanal miners civil society advocacy groups and significant religious figures and spiritual forces from African Islamic and Christian traditions Often more salient than official bodies of government the shadow sovereigns reveal a reconstitution of sovereign power one that in many ways is generated by hidden dimensions of the legal system Coyle Rosen also contends that spiritual forces are central in anchoring and animating shadow sovereigns as well as key forms of legal authority economic value and political contestation This innovative book illuminates how the crucible of gold itself governed by spirits serves as a critical site for embodied struggles over the realignment of the classical philosophical triad the city the soul and the sacred Gold Rush Ghosts of Placerville, Coloma & Georgetown Linda J.

Bottjer,2014-06-17 Fueled by the dream to strike it rich prospectors flocked to California during the gold rush Yet the harsh lifestyle and backbreaking work led many to early graves Join author Linda Bottjer on a tour through Gold Country s most chilling and true haunted tales Tales such as the hangman of Placerville whose distinctive wheeze is a sign of his continued presence Or the Georgetown miner whose unrequited love for a much younger lady of the night finds him still pining for her in death as he did in life And in Coloma the ghost of James Marshall is said to dwell on the lonely hilltop where his cabin and monument now stand These stories and many others capture the ghostly spirit of Gold Country **An Essay on the**

Mongolia over the last decade has seen a substantial and ongoing gold rush The widespread mining of gold looks at first glance to be a blessing for a desperately poor and largely pastoralist country where people s lives were disrupted by the end of the USSR and tens of millions of livestock were killed in devastating droughts in the early 2000s Volatility and uncertainty as well as political and economic turmoil led many people to join the hopeful search for gold This activity born out of uncertain times poses an intense moral problem in the land of dust disturbing the ground and extracting the precious metal

is widely believed to have calamitous consequences With gold retaining strong ties to the landscape and its many spirit beings the fortune of the precious metal is inseparable from the fears that surround mining Tracing the continuities and discontinuities between human and nonhuman worlds Mette M High follows the paths of gold as it is excavated and converted into polluted money entering local shops and Buddhist monasteries joining the illegal gold trade and returning as renewed money for the big bosses of the gold mines High has done several years of fieldwork in Mongolia spending time with the ninjas as the miners are known locally as well as the people who disapprove of their illegal activities and warn of the retribution that the land and its inhabitants may suffer as a result This book is about radical change or as many Mongolians put it when life becomes strange and chaotic High has gained a deep understanding of the processes by which Mongolians square a morally questionable activity with the lure of profit How do they involve themselves with tainted sources of money and can it ever be cleansed and made usable Addressing how our lives and those of others are intimately intertwined Fear and Fortune offers an expansive and capacious approach to understanding the high stakes involved in human economic life
