**Russia & Eurasia Documents Annual**, 1992

Strengthening Peace in Post-Civil War States Matthew Hoddie, Caroline A. Hartzell, 2010-09-15 Among the more frequent and most devastating of conflicts civil wars from Yugoslavia to Congo frequently reignite and even spill over into the international sphere Given the inherent fragility of civil war peace agreements innovative approaches must be taken to ensure the successful resolution of these conflicts Strengthening Peace in Post Civil War States provides both analytical frameworks and a series of critical case studies demonstrating the effectiveness of a range of strategies for keeping the peace Coeditors Matthew Hoddie and Caroline A Hartzell here contend that lasting peace relies on aligning the self interest of individuals and communities with the society wide goal of ending war if citizens and groups have a stake in peace they will seek to maintain and defend it The rest of the contributors explore two complementary approaches toward achieving this goal restructuring domestic institutions and soft intervention Some essays examine the first tactic which involves reforming governments that failed to prevent war while others discuss the second an umbrella term for a number of non military strategies for outside actors to assist in keeping the peace

Congress,2002 God Is Back John Micklethwait,Adrian Wooldridge,2009-04-02 A landmark examination of the resurgence of faith around the globe The Editor in Chief of The Economist and its Lexington columnist show how the global rise of religion will dramatically impact our century in God Is Back Contrary to the popular assumption that modernism would lead to the rejection of faith American style evangelism has sparked a global revival On the street and in the corridors of power the authors shine a bright light on a vast yet until now hidden world of religion Twenty first century faith is being fueled by a very American emphasis on competition and a customer driven attitude toward salvation Revealing how the religion boom is destabilizing politics and the global economy God Is Back concludes by showing how the same American ideas that created our unique religious style can be applied to channel the rising tide of faith away from volatility and violence Challenges for Quality of Life in the Contemporary World Wolfgang Glatzer,Susanne Below,Matthias Stoffregen,2012-12-06 Wolfgang Glatzer Johann Wolfgang Goethe Universitiit Franlifurt am Main Germany ABSTRACT Challenges for the quality of life in the contemporary world were the focus of the Fifth International Quality of Life Conference in Frankfurt am Main in the year 2003 hosted and organized by the Interna tional Society for Quality of Life Studies The first part of this introductory article is concerned with a general assessment of contemporary quality of life research At present the concept of quality of life is a kind of umbrella which keeps together a reasonable number of international social scientists who have similar research interests The second part of the introduction describes the topics of this book The five chapters are concerned with the societal goal discussion on quality of life the scientific monitoring of quality of life the economic challenges for quality of life its cultural challenges and finally the options and restrictions for improving quality of life Altogether the contributions are related to present interna tional investigations and discussions of basic questions of quality of life ATTENTION FOR QUALITY OF LIFE Challenges for the quality of life in the contemporary world were the focus at the Fifth International Quality of Life Conference in Frankfurt am Main in the year 2003 hosted and organized by the International Society for Quality of Life Studies There are new threats and new prospects for the quality of life in each generation and securing and improving quality of life is a never ending task **Anders Breivik and the Rise of Islamophobia** Sindre Bangstad,2014-06-12 In late July 2011 Norway was struck by the worst terror attacks in its history In a fertilizer bomb attack on Government Headquarters in Oslo and a one hour long shooting spree at the Labour Party Youth Camp at Ut ya seventy seven people mostly teenagers were killed by Anders Behring Breivik By targeting young future social democratic leaders his actions were meant to lead to the downfall of Europe s purportedly multiculturalist elites thus

removing an obstacle to his plans for an ethnic cleansing of Muslims from Europe In this highly original work leading Norwegian social anthropologist Sindre Bangstad reveals how Breivik's beliefs were not simply the result of a deranged mind but rather they are the result of the political mainstreaming of pernicious racist and Islamophobic discourses These ideas currently gaining common currency threaten equal rights to dignity citizenship and democratic participation for minorities throughout contemporary Europe An authoritative account of the Norwegian terror attacks and the neo racist discourse that motivated them

*Racial Politics in an Era of Transnational Citizenship* Michael Chang, 2004-01-01 Following 1996's Asian Donorgate campaign finance controversy Chinese Americans and by proxy all Asian Americans were depicted in U S public discourse as foreigners subversively attempting to buy influence with U S politicians Racial Politics in an Era of Transnational Citizenship asks Will the perception of the Asian American as the perpetual foreigner continue to reproduce itself uncritically heightening during times of media supported nationalism Scholar Michael Chang's incisive work contributes greatly to current debates on civil rights and on the meaning of citizenship and belonging among a transnational community and in a globalized world

**Religion and the Politics of Peace and Conflict** Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The Connections Between Religion And Violence are Complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that

exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender The essays in this collection suggest that the tasks of ameliorating irrational fears and encouraging the recognition of irreducible interreligious complementarity are tasks that can and should be shared by Christianity Judaism and Islam Moreover these traditions are replete with exemplars both historical and contemporary who witness to the possibilities for interreligious dialogue and understanding For religious persons undoubtedly these issues are particularly challenging since they require us to confront the complexities and limitations of our own traditions while also responding to their often radical demands Yet in these complexities lie the possibilities for the religions to develop a greater sense of mutual understanding since it is in these complexities that the commonalities between the religions on the matter of political violence are found from the Introduction
