[Whiskey Tango Foxtrot] Cat Connor, 2023-06-30 Hold onto your seats for the ultimate high stakes mission In Whiskey Tango Foxtrot two spies and a private eye otherwise known as Ronnie Ben and Crockett are on a mission to protect a social media influencer with her own agenda As they race against the clock to keep her safe until her crucial court testimony tensions run high when Ronnies cousin Donald insists that their neighbours are in

grave danger Crockett Ben and Ronnie reluctantly accept an off book mission from the Australians They re tasked with protecting a young social media influencer with an exceptional memory and to escort her safely to court to testify Crockett has an extra job on his list he s supposed to recruit the woman for his intelligence agency but he s not sure that is wise or that the woman will be able to transition from social media influencer to a career within the intelligence community The more time they spend with Alex the influencer the less she seems suited to anything except taking selfies and tantrums The more time they spend with Alex the influencer the more they suspect something is off about Alex If that isn t enough Ronnie s cousin Donald suspects something dreadful has happened to their neighbours and manages to drag Nana and the Cronies of Doom into his conspiracy theory despite Ronnie s many misgivings Meanwhile the team navigates through dangerous situations arising from an unknown number of assailants raising the stakes with each passing moment Will they be able to protect Alex and uncover the truth before it s too late

**Your Family Story** Elizabeth Keating,2025-07-17 What are the questions you d regret not asking when they re gone In Your Family Story anthropologist Elizabeth Keating helps you to uncover the unique memories of your parents and grandparents and to create lasting connections with them in the process By asking questions that make the familiar strange anthropologists are able to see entirely different perspectives and understand new cultures Drawing on her lifelong work in this field Keating has developed a set of questions that treat your parents and grandparents not just as the people who raised you but as individuals of a certain society and time and as the children teenagers and young adults they once were Your Family Story helps you to learn about the history of your closest family members and to help you understand their perspective on the world If you ve ever thought of asking a parent or elderly relative about their past read Your Family Story first After asking the questions Keating suggests you ll better understand not only your relatives and your heritage but also your world and yourself Deborah Tannen New York Times bestselling author of You Just Don t Understand If you ve ever heard anyone say I wish I d asked my mom about that then this is the book for you Sarah Bird author of Daughter of a Daughter of a Queen Down to earth and easy to use it s a wonderful guide Michael Erard author of Babel No More It has been a long time since I read a book that felt as urgent timely necessary and utterly relatable throughout Alexandra Georgakopoulou Nunes professor of discourse analysis and sociolinguistics at Kings College London

**The Essential Questions** Elizabeth Keating, Ph.D.,2022-11-15 Uncover new sides of family members you ve known your entire life with this indispensable guide that includes space for journaling Just as the oral histories of people around the world are disappearing amid rapid change there is a risk that your family s personal stories too will be lost forever In The Essential Questions anthropologist Elizabeth Keating helps you to uncover the unique memories of your parents and grandparents and to create lasting connection with them in the process As you seek to learn more about your family history how do you get beyond familiar anecdotes and avoid the frustration of oppositional generational attitudes By asking questions that make the familiar strange anthropologists are able to see entirely different perspectives and

understand new cultures Drawing on her lifelong work in this field Keating has developed a set of questions that treat your parents and grandparents not just as the people who raised you but as individuals of a certain society and time and as the children teenagers and young adults they once were The Essential Questions helps you to learn about the history of your elders to see the world through their eyes and to honor the language they choose to describe their experiences **The Psi**

**Connection: A Personal Voyage of Discovery** David L. Brown, 2024-06-01 A few years ago the author of The Psi Connection had a disturbing experience while experimenting with self hypnosis He saw a vision of a past life in which it appeared he had lived as a farmer in the 1800s He tried twice more and each time had a similar vision that seemed to be from the same time and place Frightened by the implications he strongly rejected the possibility that these experiences were real As a journalist with a scientific background he could not accept the reality of this bizarre phenomenon and explained it to himself as having come from his unconscious mind similar to dreams But he still had doubts Finally when he began to talk about the subject he learned that others also had experienced visions of past lives Launched on a voyage of discovery he began to realize that many events in his life could not be explained by science or common sense but only through the manifestation of paranormal powers He continued to interview others who shared their experiences in such things as telepathy psychokinesis distance viewing precognition near death experiences and other uncanny events He began to research the subject and learned that there is a large body of evidence to support the reality of paranormal powers And strikingly he began to see other manifestations of his own mental powers He became aware of the possibility that there are quantum connections between human minds and the universe itself This is his story Editing Humanity Kevin Davies, 2020-10-06 One of the world s leading experts on genetics unravels one of the most important breakthroughs in modern science and medicine If our genes are to a great extent our destiny then what would happen if mankind could engineer and alter the very essence of our DNA coding Millions might be spared the devastating effects of hereditary disease or the challenges of disability whether it was the pain of sickle cell anemia to the ravages of Huntington s disease But this power to play God also raises major ethical questions and poses threats for potential misuse For decades these questions have lived exclusively in the realm of science fiction but as Kevin Davies powerfully reveals in his new book this is all about to change Engrossing and page turning Editing Humanity takes readers inside the fascinating world of a new gene editing technology called CRISPR a high powered genetic toolkit that enables scientists to not only engineer but to edit the DNA of any organism down to the individual building blocks of the genetic code Davies introduces readers to arguably the most profound scientific breakthrough of our time He tracks the scientists on the front lines of its research to the patients whose powerful stories bring the narrative movingly to human scale Though the birth of the CRISPR babies in China made international news there is much more to the story of CRISPR than headlines seemingly ripped from science fiction In Editing Humanity Davies sheds light on the implications that this new technology can have on our everyday lives and in the lives of

generations to come      *Remember This* Monique Polak, 2024-03-12 Key Selling Points Memories are universal This book explores the role of memory in our lives whether we are young or old The book discusses a number of STEAM topics including the science of the brain how and why we make memories societal and cultural memory memory champions and memory loss It speaks to issues young readers are facing in their own lives such as the role memory plays in succeeding or not at school developing your working memory to learn forming memories as kids and using memory for creativity etc Full of amazing facts such as the origin of memory foam and why mnemonics work The author interviewed and consulted experts in memory and neuroscience including the world renowned Brenda Milner who pioneered research in the human brain and revolutionized our understanding of human memory and other brain functions Addresses connections between memory and contemporary topics such as COVID 19 PTSD residential schools and Alzheimer s disease The author is an award winning writer of dozens of books including *Why Humans Work* also in the Orca Think series      **The Perpetual Now** Michael D. Lemonick, 2017-02-07 In the aftermath of a shattering illness Lonni Sue Johnson lives in a perpetual now where she has almost no memories of the past and a nearly complete inability to form new ones *The Perpetual Now* is the moving story of this exceptional woman and the groundbreaking revelations about memory learning and consciousness her unique case has uncovered Lonni Sue Johnson was a renowned artist who regularly produced covers for *The New Yorker* a gifted musician a skilled amateur pilot and a joyful presence to all who knew her But in late 2007 she contracted encephalitis The disease burned through her hippocampus like wildfire leaving her severely amnesic living in a present that rarely progresses beyond ten to fifteen minutes Remarkably she still retains much of the intellect and artistic skills from her previous life but it s not at all clear how closely her consciousness resembles yours or mine As such Lonni Sue s story has become part of a much larger scientific narrative one that is currently challenging traditional wisdom about how human memory and awareness are stored in the brain In this probing compassionate and illuminating book award winning science journalist Michael D Lemonick uses the unique drama of Lonni Sue Johnson s day to day life to give us a nuanced and intimate understanding of the science that lies at the very heart of human nature      *Remember You Must Die* Marc D.
