*Geography of Trafficking* Fred M. Shelley,Reagan Metz,2017-10-27 This important reference work examines trafficking

from a geographic perspective and investigates the driving forces behind it and the powers that are trying to curtail the problem. The worldwide crime of trafficking involves countless people, animals and animal parts and illicit goods such as drugs and weapons being moved and sold illegally. Often the trafficking occurs with the local government or law enforcement's knowledge and complicity. This one volume encyclopedia sheds light on a frightening and major issue investigating the geography of trafficking and examining a range of examples of illegal human, animal, drug and weapons movement around the world. After a preface and introduction that provides an exact definition of trafficking, the encyclopedia presents thematic essays that explore the various specific kinds of trafficking. Approximately 30 country profiles describe who and what is trafficked in each country, the motivations of those doing the trafficking, where people and things are being moved to, how the trafficking occurs, and what actions are being taken in an effort to prevent it. An appendix of primary documents, interesting sidebars, a bibliography, and a glossary listing key terms and important organizations round out the work. **The Biscuit**

Lizzie Collingham, 2020-10-29. *Bourbons, Custard Creams, Rich Tea, Jammie Dodgers, Chocolate Digestives, Shortbread, Ginger snaps*. Which is your favourite? British people eat more biscuits than any other nation; they are as embedded in our culture as fish and chips or the Sunday roast. We follow the humble biscuit's transformation from durable staple for sailors, explorers and colonists to sweet luxury for the middling classes to comfort food for an entire nation. Like an assorted tin of biscuits, this charming and beautifully illustrated book has something to offer for everyone, combining recipes for hardtack and macaroons, Shrewsbury biscuits and Garibaldi's with entertaining and eye-opening vignettes of social history. [The Francis Daniel Pastorius Reader](#) Patrick Erben, Alfred Brophy, Margo Lambert, 2020-02-26. Francis Daniel Pastorius was one of the first German settlers to Pennsylvania and a touchstone figure of German American cultural heritage. This monumental anthology presents a selection of his many writings in one volume. Pastorius sailed to North America as a Pietist but found a unique home among the Quakers in Pennsylvania. Within this early modern religious context, he was a lawyer, educator and community leader, a polymath and a prolific writer and collector of knowledge. At the turn of the eighteenth century, Pastorius held one of the largest manuscript collections in North America and wrote voluminously in multiple languages. His collecting, curation and dissemination represents a unique look at the ways information was stored, processed and utilized during the seventeenth and eighteenth centuries in both North America and Europe. This rich selection of Pastorius's writings on religion, education, gardening, law and community and the colony of Pennsylvania, as well as letters, poems and numerous encyclopedic and bibliographic works, shows the mind of a true humanist in action. Pastorius's works have long been important to the archival study of early German settlement and the Atlantic world. Now available together, transcribed, translated and annotated, his writings will have widespread significance to

the study of early American literature and history      **Marine News** ,1955-07      Shipwrecks and the Bounty of the Sea  
David Cressy,2022-08-11 Shipwrecks and the Bounty of the Sea is a work of social history examining community relationships law and seafaring over the long early modern period It explores the politics of the coastline the economy of scavenging and the law of wreck of the sea from the beginning of the reign of Elizabeth I to the end of the reign of George II England s coastlines were heavily trafficked by naval and commercial shipping but an unfortunate percentage was cast away or lost Shipwrecks were disasters for merchants and mariners but opportunities for shore dwellers As the proverb said it was an ill wind that blew nobody any good Lords of manors local officials officers of the Admiralty and coastal commoners competed for maritime cargoes and the windfall of wreckage which they regarded as providential godsend or entitlements by right A varied haul of commodities wines furnishings and bullion came ashore much of it claimed by the crown The people engaged in salvaging these wrecks came to be called wreckers and gained a reputation as violent and barbarous plunderers Close attention to statements of witnesses and reports of survivors shows this image to be largely undeserved Dramatic evidence from previously unexplored manuscript sources reveals coastal communities in action collaborating as well as competing as they harvested the bounty of the sea      **Local Customs and Common Laws** J.D. Ford,2024-05-13 Lawyers in Scotland in the later sixteenth century took a disproportionate interest in the law governing maritime commerce Some essays in this collection consider their handling of the subject in treatises they wrote Other essays however show that disputes relating to maritime trade were handled in a different way in the courts of the towns at which ships arrived Further essays examine the relationship between these contrasting perspectives Although the essays focus on the law governing maritime commerce in Scotland they also contribute to a wider debate about the nature of maritime law in early modern Europe
