who read them but not with the effect they had with those who heard them Clemens himself would have said not with half the effect I have noted elsewhere how he always held that the actor doubled the value of the author's words and he was a great actor as well as a great author He was a most consummate actor with this difference from other actors that he was the first to know the thoughts and invent the fancies to which his voice and action gave the color of life Representation is the art of other actors his art was creative as well as representative it was nothing at second hand Mark Twain's Speeches part 1 Mark Twain,2024-12-03 Mark Twain's Mark Twain's Speeches is a collection of oratory works from the late 19th century offering insights into Twain's perspectives on society politics and culture This compilation showcases his sharp wit and humor through topics such as education government and personal anecdotes about human behavior The work opens with an introduction by W D Howells who reflects on Twain's unique style of speech emphasizing the greater impact of his words when spoken aloud compared to their written form The introduction highlights Twain's talent as both a writer and speaker drawing attention to his remarkable ability to captivate and engage audiences Following this readers are treated to a humorous and engaging anecdote from Twain's life recounting his interactions with prominent literary figures This sets a tone that blends humor with thoughtful commentary situating Twain's speeches within the broader context of his literary legacy and emphasizing the charm and accessibility of his voice Mark Twain's Speeches Albert Bigelow Paine,1923

**Mark Twain's Speeches** Mark Twain,2014-06-24 Mark Twain's Speeches by Mark Twain The English Edition Over 100 Classic Speeches These speeches will address themselves to the minds and hearts of those who read them but not with the effect they had with those who heard them Clemens himself would have said not with half the effect I have noted elsewhere how he always held that the actor doubled the value of the author's words and he was a great actor as well as a great author He was a most consummate actor with this difference from other actors that he was the first to know the thoughts and invent the fancies to which his voice and action gave the color of life Representation is the art of other actors his art was creative as well as representative it was nothing at second hand I never heard Clemens speak when I thought he quite failed some burst or spurt redeemed him when he seemed flagging short of the goal and whoever else was in the running he came in ahead His near failures were the error of a rare trust to the spontaneity in which other speakers confide or are believed to confide when they are on their feet He knew that from the beginning of oratory the orator's spontaneity was for the silence and solitude of the closet where he mused his words to an imagined audience that this was the use of orators from Demosthenes and Cicero up and down He studied every word and syllable and memorized them by a system of mnemonics peculiar to himself consisting of an arbitrary arrangement of things on a table knives forks salt cellars inkstands pens boxes or whatever was at hand which stood for points and clauses and climaxes and were at once indelible diction and constant suggestion He studied every tone and every gesture and he forecast the result with the real audience from its result with that imagined audience Therefore it was beautiful to see him and to hear him he rejoiced in the pleasure he gave and the blows of surprise which he

dealt and because he had his end in mind he knew when to stop
