

Quick Setup

Before using the projector, make sure you read the safety instructions in the online User's Guide.

Choose a location

Keep the projector level and place it at a height where its lens is centered between the top and bottom of the screen. If this isn't possible, use the lens shift dial and keystone correction buttons to reposition the image (see "Adjust the image").

In order to view 3D images correctly, 3D glasses must be worn within proper range of the projector. Use the image below to determine the ideal distance for 3D projection (the shading represents the 3D viewing area):

Use the optional external 3D emitter if the projector is located over 16.5 feet (5 m) from the viewing area. See "Optional accessories" on the back of this sheet for ordering information, and the online User's Guide for more information on where to place your projector.

Connect the projector

Choose from the following connections. See the sections below or the online User's Guide for details.

Video Device

Connect up to 5 video devices and use the **Source** buttons on the remote control or the **Source** button on the projector to switch between them.

Computer

Monitor Port

Connect one end of a VGA cable to the projector's **PC** port, and the other end to your computer's **monitor** port. If you are using a laptop, switch it to external display (see "Troubleshooting"). You can also connect an audio cable.

HDMI Port

Connect one end of an HDMI cable to the projector's **HDMI** port and the other end to an HDMI port on your computer.

Turn on your equipment

- 1 Turn on your video source or computer.
- 2 Plug in the projector.

- 3 Turn on the power switch on the back of the projector.
- 4 Press the **Power** button on the projector or **On** button on the remote control. The power light flashes blue, and then stays on.

Note: To shut down the projector, press the **Power** button on the projector twice or the **Standby** button on the remote control, then unplug it. You don't have to wait for the projector to cool down.

- 5 The default language of the menu system is **English**. To select another language, press the **Menu** button on the remote control. Select **Extended** and press **Enter**. Select **Language** and press **Enter**. Select your language and press **Enter**. Press the **Menu** button to exit the menu system.

Adjust the image

- 1 If you don't see an image, press the **Source** buttons on the remote control or the **Source** button on the projector to select the image source.

Note: If you still see a blank screen or have other display problems, see the troubleshooting tips on the back of this sheet.

- 2 To raise the image, adjust the front feet as shown below.

- 3 If necessary, turn the horizontal and vertical lens shift dials to adjust the image position and center it between the top and bottom of the screen.

- 4 Turn the zoom ring to reduce or enlarge the image.

Epson 5010 Manual

Christian G. Meyer

Epson 5010 Manual:

Embark on a transformative journey with Written by is captivating work, **Epson 5010 Manual** . This enlightening ebook, available for download in a convenient PDF format PDF Size: , invites you to explore a world of boundless knowledge. Unleash your intellectual curiosity and discover the power of words as you dive into this riveting creation. Download now and elevate your reading experience to new heights .
