REACTION PAPER
in
Civic Welfare Training Program Service
(Northville 7 Guiguinto, Bulacan)

NSTP made its way from civic welfare training by engaging in some services. This activity purpose is to contribute our learnings to the general welfare and betterment of life for the members of the community or the enhancement of its facilities, especially those devoted to improving health, education, environment, entrepreneurship, safety, recreation and moral of the citizenry and other social welfare services to the chosen lower classes in different schools, and one of these schools is in the Northville 7, Bulacan. It is the place where we've made our training program.

I've already experienced an outreach program by feeding other people, teaching what's best for them but this activity is not like that. It's different from my past experiences. The difference of it is on our outreach program, I used to teach adults but here in our activity is 3-5 years old students. So there is really a lot of difference.

The class that we've handled is somewhat naughty but also very participative. Even though they are naughty, we really enjoyed teaching and guiding them. Most of the children on the first meeting are shy type but here, most of them are really comfortable with us. My student, namely Eunice, is just a little girl, naughty, and likes fun. Despite of their status in their life, she can smile all around and make friends with other people. She's contented with what she has in her life. Sometimes, I think why don't all of us be contented with what we have and live happy. Life is short. Don't make our life stressful but live happy.

I'm very proud that I'm one of the students who experienced it. It made me realize that I'm really blessed by the Lord our God. Some of the students that I talked to said that their family is broken and others said, one of their parents died. If you compare it to yourself, you will just say, "I'm really blessed by the Lord, I'm studying at Adamson University, both my parents are loving each other, I can eat thrice a day, etc." I've learned from them is to be contented with what you have.

In general, this major activity is successful. They learned a lot from us but also, we've learned from them too.

Liberal Education in Twenty-first Century Engineering David F. Ollis, Kathryn Angelyn Neeley, Heinz C. Luegenbiehl, 2004 Twenty first century engineering education must meet radically revised national accreditation standards known colloquially as EC2000 This book shows paths forward for all faculty involved in the liberal education of engineering undergraduates Beginning with an exhortation for liberal education it includes the EC2000 criteria and its historical origin as well as example institutional and individual responses to these criteria which include topics in communication ethics and professional responsibility contemporary issues art and aesthetics and the integration of engineering and the humanities The variety of curricular responses presented indicate that this is a formative perhaps even revolutionary period in engineering education

Documenting Forensic Linguistics in the African Context Monwabisi K. Ralarala, Russell H. Kaschula, Zakeera Docrat, Emmanuel Satia, Karien van den Berg, 2025-06-30 The field of forensic linguistics which integrates the fields of language and the law is not only a necessity in Africa but also a lifeblood in the entire administration of justice Hopefully the emergence of this field and the inroads it is bound to make on the multilingual and culturally diverse continent shall ameliorate the adverse effects of the African diaspora given the high density of languages and the polarity of its people Notwithstanding the noble intentions of administrators of justice the language and interpretation translation barriers which often hinder the desired results This is not only prevalent in the criminal justice system but also rears its ugly head in civil trials Awareness of such shortcomings must be heightened especially among presiding officers legal practitioners and law enforcement officers The series of books on Forensic Linguistics Language and Law should not be for the preserve and benefit of scholars in this field but also be distributed and promoted among all for the benefit of the wider community especially in the legal field Advocate Babalo Metu Also Acting Judge of the Eastern Cape Division and the Labour Court

Documenting Forensic Linguistics in the African Context breaks new ground in exploring these critical questions Through 14 comprehensive chapters leading scholars examine the intricate relationship between language and law in Africa s multilingual courtrooms From police interview models to witness statement analysis from authorship identification to the challenges of training forensic linguists this volume offers unprecedented insights into the complexities of legal linguistics in African contexts This groundbreaking work an essential reading for legal practitioners linguists scholars and anyone interested in the intersection of language law and justice in contemporary Africa arrives at a crucial moment as forensic linguistics emerges as a vital field across Africa Rich in both theoretical foundations and practical applications it sets a new agenda for understanding how language shapes justice in multilingual multicultural societies Professor Felix Banda
