

Family Environment Scale

You are to decide which of these statements are true for your family and which are false. There is no right or wrong answers; all you have to do is answer what is true for your family. If you think the statement is true or mostly true for your family members, make a (x) on Yes. If you think the statement is false or mostly false for your family members, mark a (x) on No.

Questions	Yes	No
Activities in our family are pretty carefully planned.		
Someone usually gets upset if you complain in our family.		
There is a strong feeling of togetherness in our family.		
We tell each about our personal problems without any hesitation.		
There is plenty of time and attention for everyone in our family.		
My family members almost always rely on themselves when a problem comes up.		
We often seem to be killing time at home.		
We fight a lot in our family.		
In my family we really help and support one another in everything we do.		
We really get along well with each other in our family.

Medical Contexts Carey DeMichelis, Michel Ferrari, 2016-10-13 This book explores the social conditions that promote pediatric resilience. It presents resilience as a set of complex interpersonal, institutional, and political relationships that affect young patients' ability to do well in the face of medical adversity. Chapters analyze the impact of chronic or disabling conditions on children's development while highlighting effective interventions that promote family well-being. This book integrates research from psychology, social work, medical anthropology, child life, specialty palliative care, public health, and nursing to examine a wide variety of family, cultural, and medical contexts. Practical strategies for supporting children and families are discussed from meaningful assessment and interventions to social policy and advocacy. Featured topics include: Psychosocial factors influencing children with immune-related health conditions; Resilience and pediatric cancer survivorship within a cultural context; Promoting resilience in chronically ill children and their families during the transition to adolescence; Creating a context for resilience in medical settings; Promoting resilience through children's health and social care policy. *Child and Adolescent Resilience Within Medical Contexts* is a must-have resource for researchers, clinicians, and other professionals as well as graduate students in child and school psychology, child and adolescent psychiatry, social work, pediatrics, medical anthropology, nursing, educational psychology, and policy. *Social Workers' Desk Reference* Albert R.
