

FARMALL CUB

Illustr. 3—Location of Controls.

Instruments and Controls

The belt pulley, power take-off, adjustable front axle, and starting and lighting attachments are special equipment on the Farmall Cub, and are only furnished when ordered. However, the instructions for operating and maintaining these attachments have been incorporated into the instructions for operating and maintaining the tractor. If your tractor does not have these special features the instructions for their operation may be disregarded.

Brake Pedals

These pedals are used to stop the tractor, to hold the tractor in a stationary position, or to assist in making sharp turns as outlined below:

To stop the tractor, latch the pedals together so both brakes will operate simultaneously when the pedals are pressed down.

To hold the tractor in a stationary position, latch the pedals together, depress and lock them in this depressed position by using the brake pedal lock.

To assist in making a sharp turn, the pedals must be operated individually, de-

pressing the pedal on the side toward which the turn is to be made.

The brake pedal latch (located behind the left-hand brake pedal), is used to latch both brake pedals together, causing the brakes to operate simultaneously.

The brake pedal lock, *Illustrs. 3 and 77*, is used to lock the brake pedals in the depressed position which prevents the tractor from moving.

Clutch Pedal

This pedal, when depressed all the way, disengages the engine from the transmission.

Farmall Cub Repair Manual

SB Merriam

Farmall Cub Repair Manual:

As recognized, adventure as skillfully as experience very nearly lesson, amusement, as well as harmony can be gotten by just checking out a books **Farmall Cub Repair Manual** next it is not directly done, you could take even more concerning this life, something like the world.
