Brodsky & Utkin Lois Nesbitt, Alexander Brodsky, Ilya Utkin, 2003-07 Alexander Brodsky and Ilya Utkin are the best known of a loosely organized group of Soviet artists known as Paper Architects who designed much but built little in the early days of Glasnost in the late 1980s Many of their elaborate etchings in which they depicted outlandish often impossible structures and cityscapes of allegorical content were collected in our 1990 book Brodsky Utkin Now with the addition of forty three new and never before published prints we are pleased to announce this updated edition In their designs by turns funny cerebral and deeply human Brodsky Utkin borrow from Egyptian tombs Ledoux s visionary architecture Le Corbusier s urban master plans and other historical precedents collaging these heterogeneous forms in learned and layered scrambles Underlying the wit and visual inventiveness is an unmistakable moral that the dehumanizing architecture of the sort seen in Russian cities in the 1980s and 1990s and elsewhere around the globe takes a sinister toll A new preface assesses the works of Brodsky Utkin and reminds us that the greatest art is often born of adversity Beautifully printed in 300 screen dry trap duotones by the Steinhauer Press Brodsky Utkin is a book for artists architects and collectors alike
