Pluralist Readings in Economics: Key Concepts and Policy Tools for the 21st Century Maria Alejandra Madi, 2017-06-15 The era of globalization has brought about unprecedented social political and environmental challenges for policy makers around the world due to the global impact of economic decisions In view of these challenges economics as a discipline needs to be taught with the goal of broadening the dialogue on social responsibility and developing a new pluralist culture of decision making which is inclusive to different schools of economic thought *Pluralist Readings in Economics* Key concepts and policy tools for the 21st century highlights the long standing debates regarding economic systems business models criteria of justice and economic policies by providing conceptual openings to economic theory in an engaging and accessible way The author provides broad coverage of relevant topics through the selection of influential economic thinkers and introduces the reader to their ideas context and relevant interpretations While dealing with complex problems the author goes beyond commonly known concepts by presenting questions on the historical context of globalization The study of economic concepts in this way leads to asking new questions concerning various issues relevant to economics The goal of the text is to provide an interdisciplinary perspective to readers in order to equip them with information that is key to address global economic challenges Thus this pluralist approach calls for a reflection of the evolution of global social and economic conditions to demonstrate problem solving approaches that align with the goal of addressing these challenges *Pluralist Readings in Economics* Key concepts and policy tools for the 21st century is suitable to a broad interdisciplinary readership as it will benefit all those who seek to better understand the complex stakes of the capitalist system in the tensions between regulatory policies free market equilibria and participatory openings in governance This introductory work also prepares the reader for debates and discussion in economic theory aimed at shaping policy transformations towards a more equitable just and sustainable world

Developing Core Literacy Proficiencies, Grade 6 Odell Education, 2016-07-19 The Developing

Core Literacy Proficiencies program is an integrated set of English Language Arts Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS): Reading Closely for Textual Details, Making Evidence-Based Claims, Making Evidence-Based Claims about Literary Technique, Grades 9-12 Researching to Deepen Understanding, Building Evidence-Based Arguments. The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from making inferences to reflecting critically. Students focus on this set of twenty skills throughout the year and program continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as preparing and completing tasks that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system centered around the literacy skills and academic habits allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.
