

# Task 1: Knowledge/Understanding questions

1. Expand and simplify the following powers. Give all of the answers in terms of positive exponents.

$$a) (3a^2b^3)^2 - 3a^2b^3(3a^2b^3)$$

$$= (3a^2b^3)^2 - 3a^2b^3(3)$$

$$= 9a^4b^6 - 9a^2b^3$$

$$= 9a^2b^3$$

$$b) \left(\frac{2}{3}\right)^{-3}$$

$$= \left(\frac{3^{\text{index}}}{2^{\text{index}}}\right)$$

$$= \frac{3^{\text{index}}}{2^{\text{index}}}$$

$$c) (-45)(1) + 64^{\frac{1}{2}} + (2^3)(1)$$

$$= (-45)(1) + 64^{\frac{1}{2}} + 8$$

$$= \frac{-45}{1} + \frac{1}{4} + \frac{64}{1}$$

$$= \frac{-180}{4} + \frac{1}{4} + \frac{256}{4}$$

$$= \frac{77}{4}$$

$$= 19.25$$

$$d) 3(2x-2)(2x+2)$$

$$= 6(2x-2)(2x+2) \text{ add the exponents}$$

$$= 6(12x^2 + 12x - 4x - 4)$$

$$= 6(12x^2 + 8x - 4)$$

The exponent on x should be 1x+1

$$e) \frac{2^{x^2} \sqrt{x-4}}{3^{2x^2} \sqrt{x+4}}$$

$$= 2^{-3x^2(x-2)(x+4)(x-4)}$$

$$= 2^{4x^2 - 48}$$

2. Evaluate  $\log_5 625$  using the following methods. Give

- a. by switching from logarithmic to exponential form

$$x = \log_5 625$$

$$5^x = 625$$

$$x = 4$$

**International Legal Responsibility of International Organizations in the ILC Draft Articles and Beyond** Sarah Bayani, 2022 The phenomenon of proliferation of international organizations has urged focus on the responsibility of international organizations under international law as the effect of their activities is witnessed everywhere in our daily life The main purpose of the present book is to examine and review some specific aspects relevant to the question of international legal responsibility of international organizations mainly with a view to assessing the International Law Commission's work on the codification of the international legal rules applicable on international organizations in this area At the same time the intention is to address the major challenge to the codification of general rules for international organizations namely their wide varying nature and their differences from each other Furthermore the perspective has been enlarged by elaborating on the broader concept of accountability of international organizations Record of Proceedings, 1991

**The Principle of Systemic Integration** Gabriel Orellana Zabalza, 2012 This dissertation analyzes whether or not the principle of systemic integration as expounded in Article 31.3 c of the Vienna Convention on the Law of Treaties contributes to attainment of a coherent international legal system For this purpose the book considers three general ideas the unity of the international legal system and fragmentation the general rule on treaty interpretation and the principle of systemic integration and the role of systemic integration in the achievement of coherence Each one involves specific issues and considerations which ultimately assist in addressing the main question as to the usefulness of the principle in the curtailment of fragmentation in the international legal system Dissertation Series Cologne Studies in International and European Law Kolner Schriften zum internationalen und europäischen Recht Vol 24 *General International Law Before Human Rights Courts* Frédéric Vanneste, 2010 This book analyzes how the European Court of Human Rights ECtHR and the Inter American

Court of Human Rights IACtHR deal with general international law In light of the concerns of various authors about the fragmentation of international law and the human rightist aspirations of human rights law the question arises whether these human rights courts put the unity of general international law into danger The main idea of this study is that the ECtHR and the IACtHR may in principle only elaborate and not depart from or contradict general international law A departure is only acceptable if a clear *lex specialis* has been established for human rights law The author researches whether or not the sometimes different case law of both human rights courts fits into this assumption Almost all topics of general international law that have been dealt with by the ECtHR and IACtHR are analyzed including reservations application of treaties *ratione temporis* *ratione loci* and r     Advanced Engineering Mathematics James Alan Cochran,H. **Irresolvable Norm Conflicts in International Law** Valentin Jeutner,2017-08-04 Conventionally international legal scholarship concerned with norm conflicts focuses on identifying how international law can or should resolve them This book adopts a different approach It focuses on identifying those norm conflicts that law cannot and should not resolve The book offers an unprecedented controversial yet sophisticated argument in favour of construing such irresolvable conflicts as legal dilemmas Legal dilemmas exist when a legal actor confronts a conflict between at least two legal norms that cannot be avoided or resolved Addressing both academics and practitioners the book aims to identify the character and consequences of legal dilemmas to distil their legal function within the sphere of international law and to encourage serious theoretical and practical investigation into the conditions that lead to a legal dilemma The first part proposes a definition of legal dilemmas and distinguishes the term from numerous related concepts Based on this definition the second part scrutinises international law s contemporary norm conflict resolution and accommodation devices in order to identify their limited ability to resolve certain kinds of norm conflicts Against the background of the limits identified in the second part the third part outlines and evaluates the book s proposed method of dealing with legal dilemmas In contrast to conventional approaches that recommend dealing with irresolvable norm conflicts by means of non liquet declarations judicial law making or a balancing test the book s proposal envisions that irresolvable norm conflicts are dealt with by judicial and sovereign actors in a complementary fashion Judicial actors should openly acknowledge irresolvable conflicts and sovereign actors should decide with which norm they will comply The book concludes with the argument that analysing various aspects of international law through the concept of a legal dilemma enhances its conceptual accuracy facilitates more legitimate decision making and maintains its dynamic responsiveness     *The Software Encyclopedia* ,1988     **Research Handbook on Intelligence and International Law** Russell Buchan,Iñaki Navarrete,2025-07-15 The Research Handbook on Intelligence and International Law brings together expert scholars and practitioners to comprehensively assess how international law applies to the work of the intelligence community In doing so the Research Handbook covers various rules of international law including the law of State responsibility and the principles of sovereignty non intervention and non use of force as well as specialised regimes

LeBlanc,1991 In this definitive study Lawrence J LeBlanc examines the nearly forty year struggle over ratification of the Genocide Convention by the United States LeBlanc s analysis of the history of the convention and the issues and problems surrounding its ratification sheds important light on the process of treaty ratification in the United States and on the role of American public opinion and political culture in international human rights legislation Drawing on case studies of genocide committed since World War II the author also confronts the strengths and weaknesses of international adjudication as a whole Adopted by the United Nations General Assembly in 1948 in response to the atrocities committed by the Nazis before and during World War II the Genocide Convention was finally made law by the United States Senate in 1988 contingent upon a series of conditions known as the Lugar Helms Hatch Sovereignty Package which LeBlanc suggests markedly weakened the convention Through careful analysis of the bitter debates over ratification LeBlanc demonstrates that much of the opposition to the convention sprang from fears that it would be used domestically as a tool by groups such as blacks and Native Americans who might hold the U S accountable for genocide in matters of race relations      The International Labour Organization Daniel Maul,2019-11-05 This book is the first comprehensive account of the International Labour Organization s 100 year history At its heart is the concept of global social policy which encompasses not only social policy in its national and international dimensions but also development policy world trade international migration and human rights The book focuses on the ILO s roles as a key player in debates on poverty social justice wealth distribution and social mobility subjects and as a global forum for addressing these issues The study puts in perspective the manifold ways in which the ILO has helped structure these debates and has made through its standard setting technical cooperation and myriad other activities practical contributions to the world of work and to global social policy

**Justification and Excuse in International Law** Federica Paddeu, 2018-01-11 The defences available to an agent accused of wrongdoing can be considered as justifications which render acts lawful or excuses which shield the agent from the legal consequences of the wrongful act This distinction is familiar to many domestic legal systems and tracks analogous notions in moral philosophy and ordinary language Nevertheless it remains contested in some domestic jurisdictions where it is often argued that the distinction is purely theoretical and has no consequences in practice In international law too the distinction has been fraught with controversy though there are increasing calls for its recognition This book is the first to comprehensively and thoroughly examine the distinction and its relevance to the international legal order Combining an analysis of state practice and historical doctrinal and theoretical developments the book shows that the distinction is not only possible in international law but that it is also one that would have important practical implications
