Scarborough,2015-02-23 The primary theoretical question addressed in this book focuses on the lingering concern of how the ancient Maya in the northern Pet n Basin were able to sustain large populations in the midst of a tropical forest environment during the Late Classic period This book asks how agricultural intensification was achieved and how essential resources such as water and forest products were managed in both upland areas and seasonal wetlands or bajos All of these activities were essential components of an initially sustainable land use strategy that eventually failed to meet the demands of an escalating population This spiraling disconnect with sound ecological principles undoubtedly contributed to the Maya collapse The book s findings provide insights that broaden the understanding of the rise of social complexity the expansion of the political economy specifically and in general terms the trajectory of cultural evolution of the ancient Maya civilization **AERO TRADER & CHOPPER SHOPPER, AUGUST 2002** Causey Enterprises, LLC, **AERO TRADER, JUNE 2007** Causey Enterprises, LLC, **Application of a Portable GPS/desktop Mapping System for Fire Management Support** Delio Tortosa,Great Lakes Forestry Centre,Paul Beach,Northern Forestry Program (Canada),1996 Describes a project conducted to demonstrate the feasibility of implementing a user friendly portable low cost global positioning system GPS receiver as well as a notebook based desktop mapping system to facilitate rapid updating inventory and analysis of forest fires on a near real time basis Field trials of the GPS desktop mapping system consisted of using aerial GPS to determine fire perimeter to locate hot spots and lightning strikes and to identify values at risk Ground GPS was used to survey logging roads values at risk and prescribed burn perimeters and to access certain locations using helicopter borne GPS Traditional mapping methods were then compared with the GPS desktop mapping system Operational testing of the GPS desktop system was completed in 1993 by a fire crew in the Sault Ste Marie district of Ontario **Field &**
