The discipline's territory and sources are rich and varied and include climatic and geological data, court records, archaeological digs, and the writings of naturalists, as well as federal and state economic and resource development and conservation policy. Diane Apostolos-Cappadona begins by examining how art and Christianity have intersected throughout history and charts this tumultuous relationship that has yielded some of the greatest outpourings of human creativity. In the

more than 1000 entries that follow Apostolos Cappadona gives readers an expert overview of all the frequently used symbols and motifs in Christian art as well as the various saints historical figures religious events and biblical scenes most frequently depicted Readers are introduced to the ways in which religious paintings are often coded such as what a lily means in a picture of Mary how a goldfinch can be Christological or how the presence of an Eagle means it is likely to be a picture of St John The entries are organized by topic so that students and beginners can easily find their way to discussion of the themes and motifs they see before them when looking at a painting      Eastern Region Regional Guide ,1983
