**The Healing Gods** Candy Gunther Brown,2013-07-30 The question typically asked about complementary and alternative medicine CAM is whether it works However an issue of equal or greater significance is why it is supposed to work The Healing Gods Complementary and Alternative Medicine in Christian America explains how and why CAM entered the American biomedical mainstream and won cultural acceptance even among evangelical and other theologically conservative Christians despite its ties to non Christian religions and the lack of scientific evidence of its efficacy and safety Before the 1960s most of the practices Candy Gunther

Brown considers yoga chiropractic acupuncture Reiki Therapeutic Touch meditation martial arts homeopathy anticancer diets were dismissed as medically and religiously questionable These once suspect health practices gained approval as they were re categorized as non religious though generically spiritual health care fitness or scientific techniques Although CAM claims are similar to religious claims CAM gained cultural legitimacy because people interpret it as science instead of religion Holistic health care raises ethical and legal questions of informed consent consumer protection and religious establishment at the center of biomedical ethics tort law and constitutional law The Healing Gods confronts these issues getting to the heart of values such as personal autonomy self determination religious equality and religious voluntarism

**The Moulder's and Founder's Pocket Guide** Frederick Overman,1893      Building Natures Julia Daniel,2017-11-28 In Building Natures Julia Daniel establishes the influence of landscape architecture city planning and parks management on American poetry to show how modernists engaged with the green worlds and social playgrounds created by these new professions in the early twentieth century The modern poets who capture these parks in verse explore the aesthetic principles and often failed democratic ideals embedded in the designers verdant architectures The poetry of Carl Sandburg Wallace Stevens William Carlos Williams and Marianne Moore foregrounds the artistry behind our most iconic green spaces At the same time it demonstrates how parks framed rather than ameliorated civic anxieties about an increasingly diverse population living and working in dense unhealthy urban centers Through a combination of ecocriticism urban studies and historical geography Building Natures unveils the neglected urban context for seemingly natural landscapes in several modernist poems such as Moore s An Octopus and Stevens s Notes Toward a Supreme Fiction while contributing to the dismantling of the organic mechanic divide in modernist studies and ecocriticism      **Federal Register** ,1992-05-26      *How Safe is Safe Enough?* United States.
