Handbook of Research on Transforming Teachers' Online Pedagogical Reasoning for Engaging K-12 Students in Virtual Learning Niess, Margaret L.,Gillow-Wiles, Henry,2021-06-25

The COVID 19 pandemic drastically transformed the classroom by keeping students and teachers apart for the sake of safety As schools emptied remote learning rapidly expanded through online services and video chatrooms Unfortunately this disrupted many students and teachers who were not accustomed to remote classrooms This challenge has forced K 12 teachers to think differently about teaching Unexpectedly and with little time to prepare they have been confronted with redesigning their curriculum and instruction from face to face to online virtual classrooms to protect students from the COVID 19 virus while ensuring that these new online initiatives remain sustainable and useful in the post pandemic world As teachers learn to take advantage of the affordances and strengths of the multiple technologies available for virtual classroom instruction their instruction both in online and face to face will impact what and how students learn in the 21st century The Handbook of Research on Transforming Teachers Online Pedagogical Reasoning for Engaging K 12 Students in Virtual Learning examines the best practices and pedagogical reasoning for designing online strategies that work for K 12 virtual learning The initial section provides foundational pedagogical ideas for constructing engaging virtual learning environments that leverage the unique strengths and opportunities while avoiding the weaknesses and threats of the online world The following chapters present instructional strategies for multiple grade levels and content areas best practices that work clearly describing why they work and the teachers pedagogical reasoning that supports online implementations The chapters

provide ways to think about teaching in virtual environments that can be used to guide instructional strategy choices and recognizes the fundamental differences between face to face and virtual environments as an essential design component Covering such topics as K 12 classrooms pedagogical reasoning and virtual learning this text is perfect for professors teachers students educational designers and developers instructional technology faculty distance learning faculty and researchers interested in the subject

Engaging Minds in Science and Math Classrooms Eric Brunsell,Michelle A. Fleming,2014-02-25 We decide every day whether we are going to turn students on or off to science and mathematics in our classrooms Daily decisions about how to incorporate creativity choice and autonomy integral components of engagement can build students self efficacy keep them motivated and strengthen their identities as scientists and mathematicians In this book Eric Brunsell and Michelle A Fleming show you how to apply the joyful learning framework introduced in Engaging Minds in the Classroom to instruction in science and mathematics Acknowledging that many students particularly girls and students of color do not see themselves as mathematicians and scientists the authors provide a series of suggested activities that are aligned with standards and high expectations to engage and motivate all learners Given the current focus on encouraging students to pursue science technology engineering and mathematics STEM studies this book is a welcome addition to every teacher s reference collection Eric Brunsell is a former high school science teacher and is now associate professor of science education at the University of Wisconsin Oshkosh Michelle A Fleming is a former elementary and middle school teacher and is now assistant professor of science and mathematics education at Wright State University in Dayton Ohio

Book Steven Berbeco,2011-08-19 Abstract In this study I propose a strong and innovative model of teaching that centers on the student and I report on the efficacy of this model using quantitative research procedures This model of teaching is systematized in the Marhaba curriculum a method of teaching first year high school Arabic that I designed tested and evaluated The Marhaba curriculum is founded on best practices and is a natural outgrowth of contemporary education theories including non linear curriculum design and multiple modality teaching materials that take into consideration students diverse learning styles Analysis of data indicates that use of the Marhaba curriculum positively influences student proficiency in Arabic In particular students become proficient regardless of a student s gender grade socioeconomic status or parent educational background Also student proficiency is not dependent on a student s attitude to learning or engagement in class or a student s attitude toward the curriculum
