

FINANCIAL ACCOUNTING REVIEW

- The principles, which constitute the ground rules for financial reporting, are termed as generally accepted accounting principles. To qualify as generally accepted, an accounting principle:
 - must guide corporate managers in the preparation of financial statements which should be understood by widely scattered stockholders.
 - must guide corporate managers in the preparation of financial statements which will be used in making collective bargaining agreements with trade unions.
 - must guide entrepreneurs in the choice of investments.
 - must receive substantial authoritative support from the public and the members of the profession. **D**
- In accounting, those standards and practices that have won acceptance because of their logic and proven usefulness are referred to as:
 - accounting dogmas
 - accounting principles
 - accounting procedures
 - accounting theories **B**
- Financial statements that are expressed assuming a stable monetary unit are:
 - general price-level financial statements.
 - historical peso financial statements.
 - current value financial statements.
 - fair-value financial statements. **B**
- As compared with other valuation alternatives that are used in the preparation of general-purpose financial statements, historical cost is more:
 - objective.
 - relevant.
 - indicative of the entity's purchasing power.
 - conservative. **A**
- The following information is shown in the accounting records of Manolito Company for the year 2008:
