Foundations of Airline Finance Bijan Vasigh, 2014-11-13 In recent years the airline industry has experienced severe volatility in earnings with airlines recording periods of substantial profits that are closely followed by periods of financial distress. This trend has continued into the new millennium with numerous examples of airlines across the globe entering bankruptcy protection or liquidating. The text provides an introduction to both the basics of finance and the particular intricacies of airline finance where there can be significant fluctuations in both revenues and costs. This new edition also includes capital budgeting, management of current assets, financial risk analysis, fuel hedging, aircraft leasing. This textbook contains chapters that cover unique aspects of the aviation financial decision making process. These include a rigorous and structured presentation of the buy versus lease decision that is prevalent in the industry, a valuation process for aviation assets, the recent trend toward privatization and the difficulty inherent in the valuation of a publicly owned or semi publicly owned asset. The Foundations of Airline Finance now in its second edition is an introductory text that can be used either as a general financial text or in a specialized class that deals with aviation finance in particular.

and International Academic Conference on Transport Tourism and Sport Science in Prague 2017 **The Ethics of Justice Without Illusions** Louis E. Wolcher, 2016-06-17 The founding premise of this book is that the nimbus of prestige which once surrounded the idea of justice has now been dimmed to such a degree that it is no longer sufficient to secure the possibility of a good conscience for those who undertake in good faith to make the world a better place in the spheres of politics and law. The many decent human beings who have noticed and experienced this diminishment of justice's prestige find themselves in a thoroughly disenchanted existential situation. For them the attempt to do justice without the illusion of being grounded in something beyond the sheer facticity of their own performances is a distinctly ethical theme which cries out to be investigated in its own right. Heeding the cry this book asks and attempts to answer the following fundamental ethical question: is a life in the law even one spent in the pursuit of justice worth living and if so how can a disenchanted person come to bear the living of it without constantly having to engage in self-deception? If Nietzsche is right that living without illusions is impossible for human beings then the most important ethical implication of this essentially anthropological fact goes far beyond the question of what illusions we ought to choose. It must also include the question of whether we should succumb to that most seductive and pernicious of all illusions namely the belief that exercising great care and responsibility in choosing our illusions which we might then call our principles of justice excuses us ethically for what we do to others in their name. The culmination of a 10 year legal philosophical project this book will appeal to graduate students scholars and curious non-academic intellectuals interested in continental philosophy critical legal theory postmodern theology the philosophy of human rights and the study of individual ethics in the context of law **Manajemen Investasi dan Portofolio** Puspita Maelani, Agnes Soukotta, Loureine Patricia Sumual, Suharto Suharto, Andi Aris Mattunruang, Dodi Apriadi, Wa Ode Harliyanti Unga, Muhammad Faisal, Erfendi Regar, 2024-10-23 Buku Manajemen Investasi dan Portofolio membahas secara komprehensif tentang strategi dan prinsip pengelolaan investasi yang efektif untuk mencapai tujuan keuangan yang optimal.
