Four Square for Writing Assessment - Secondary Judy Gould, Mary F. Burke, 2010-09-01 This new addition to the popular Four Square series helps prepare students for the writing assessment. Students will learn an organized Four Square approach for brainstorming as well as a simple three step revision process to use on their initial drafts. On assessment day teachers cannot confer with students and students cannot assist one another. The writer must have a method to deliver their best writing on demand. That writing needs to be organized, focused, detailed, and engaging. The writer needs a plan on assessment day and the Four Square plan is the best way to get the job done. Four Square: Writing Method Early Learner

Judy Gould, Mary F. Burke, 2010-09-01 Teach writing skills using the Four Square method which has been proven to work in classrooms just like yours. The Four Square method can be used with all forms of writing and will fit any reading or language arts program. This step by step approach is built around a simple graphic organizer that first shows students how to collect ideas and then helps them use those ideas to create clear and polished prose. Open ended reproducibles make the technique accessible to writers of all ability ranges. Also great for content area writing.
