Hanging Summer Strevens, 2018-09-30 For the sake of decency gentlemen don't hang me high This was the last request of modest murderess Mary Blandy who was hanged for poisoning her father in 1752 Concerned that the young men in the crowd who had thronged to see her execution might look up her skirts as she was turned off by the hangman this last nod to propriety might appear farcical in one who was about to meet her maker Yet this was just another aspect of a case which attracted so much public attention in its day that some determined spectators even went to the lengths of climbing through the courtroom windows to get a glimpse of Mary while on trial Indeed her case remained newsworthy for the best part of

1752 for months garnering endless scrutiny and mixed reaction in the popular press Opinions are certainly still divided on the matter of Mary s intention in the poisoning of her father and the extent to which her coercive lover Captain William Cranstoun was responsible for this murder by proxy Yet Mary Blandy s trial was also notable in that it was the first time that detailed medical evidence had been presented in a court of law on a charge of murder by poisoning and the first time that any court had accepted toxicological evidence in an arsenic poisoning case The forensic legacy of the acceptance of Dr Anthony Addington s application of chemistry to a criminal investigation is another compelling aspect of The First Forensic Hanging The Holy Bible ... With Explanatory Notes ... By Thomas Scott ... A New and Improved Edition ,1806

The Cottage Bible and Family Expositor William Patton,1844 **Little Oakley Primary School Trilogy Book 1: Welcome to Little Oakley** Rob Worthing, Welcome to Little Oakley Primary School a microcosm of the joyous chaos that is primary education This isn t a story about perfectly behaved children and flawlessly executed lesson plans it s a celebration of the messy unpredictable and ultimately heartwarming reality of teaching and learning Meet Emily Bramble our protagonist a newly qualified teacher brimming with idealism and armed with a suitcase full of carefully crafted lesson plans She quickly discovers that the reality of teaching is far more entertaining and challenging than anything she could have anticipated The hallways of Little Oakley are populated with an eclectic cast of characters a perpetually lost headteacher a perpetually tired art teacher and a bevy of students whose creativity often outstrips their classroom decorum The school itself is a character in its own right its brightly colored walls have witnessed countless sticky situations tearful reconciliations and whispered secrets The book explores the delightful complexities of primary school life from the challenges of managing twenty five six year olds to the sheer joy of witnessing a child s aha moment The characters are flawed eccentric and absolutely endearing mirroring the spectrum of personalities found in any primary school both staff and pupils It s a story about finding joy amidst the chaos building connections amidst the pandemonium and discovering that even a runaway hamster or a glue related incident can teach us valuable lessons about life resilience and the unbreakable bond between teacher and pupil This isn t just a funny story about teachers it s a heartfelt tribute to the dedication patience and pure comedic genius of everyone involved in the world of primary education Whether you re a seasoned educator a nostalgic parent or simply someone who appreciates a good laugh prepare yourself for a wild ride through the hallways of Little Oakley Prepare for laughter heartwarming moments and the undeniable charm of slightly sticky classroom scenarios This is only the first of many adventures at Little Oakley the stage is set the players are ready and the potential for further mishaps is enormous

Personal Reality, Volume 1 Daniel Paksi,2020-05-28 Western civilization was built on the concept of God Today modern science based on the critical method and so called objective facts denies even the existence of our soul There is only matter atoms molecules and DNA sequences There is no freedom there are no well grounded beliefs The decline of Western civilization is not the simple consequence of decadence hedonism and malevolence Modern critical science has liberated us

from the old dogmas but failed to establish our freedoms values and beliefs However human knowledge is not objective but personal We are the children of evolution Everybody sees the world from his own personal point of view anchored into his her body We use our billions of years old evolutionary skills and thousands of years old cultural heritage to recognize and acknowledge the personal facts of our reality freedom and most important natural beliefs respect and speak the truth In reality even science itself is based on our personal knowledge Only our false conceptual dichotomies paralyze our thinking God or matter There is a third choice the emergence of life and human persons This is the only way to defend our freedoms and the Christian moral dynamism of free Western societies
