Yellow Bear and Silver Shoes Buddy Johnson, 2017-11-08 Atop the Unaka Mountain overlooking the many ridges and valleys looking out across the vast expanse from east to west I became aware of distant mountains that my father could name without a moments hesitation and point out the lay of the old trace of the old Wagon Road Years upon years ago many events occurred and some of them were formed into stories that were told to children around the campfire when they camped along the old trails As time changed the children into old men a few stories were told over and over until they became woven into the fabric of folklore Now I cannot name but a few of the mountains and my father is gone No doubt most of the Indian tales are gone too lost in the pages of time Aided with folklore and imagination maybe we can unweave one or two stories that otherwise might have been lost When I was but a lad many were the old stories I heard One of those was most fascinating the story of a lost mine Lost Treasure of Long Ago and another was one called Bear Wallow a little flat at the head of a long valley where bears were seen that were eerie looking because of the yellow mudholes that they wallowed in Perhaps the story of Yellow Bear and his horse that wore silver shoes is one of those tales that has been uncovered from the lost pages of time

these subjects are discussed in a holistic context that says life is not fragmented as in the model provided by modern science but rather that all the pieces make up an interconnected whole By revealing the natural laws of this holistic universe the book offers much practical advice on how to promote a long happy and healthy life The original text of the Neijing presents broad concepts and is often brief with details The translator s elucidations and interpretations incorporated into the translation help not only to clarify the meaning of the text but also to make it a highly readable narrative for students as well as for everyone curious about the underlying principles of Chinese medicine **The Journal of the Linnean Society** ,1896
