Frank Richards Billy Bunter:

Billy Bunter in Brazil Charles Hamilton, 1952 *Billy Bunter's Benefit* Charles Hamilton, 1960 Growing up with the Gauleiter Richard Lord, 2017-02-07 He thinks in time lines and relates whatever he comes across to its origins in the past So while readers will discover what happened to the Lord family between 1939 and 1945 not much really they had it dead cushy the narrative is interspersed with interpretation and discussion about how the war changed things Although Richard inevitably became a history teacher his lifelong passion for retrospection was triggered long before he could even read by three things the pictures in an old schoolbook wartime news bulletins read by the BBC s Alvar Liddell and what his Dad told him about how it had been in the trenches in 1918 Although the author takes his history seriously he is typically irreverent and usually up for a laugh There is also a poignant element in a memoir that sometimes takes a confessional turn *The Autobiography of Frank Richards* Charles Hamilton, 1962 **From Morality to Mayhem** Julian Lovelock, 2018-10-25 The stories we read as children are the ones that stay with us the longest and from the nineteenth century until the 1950s stories about schools held a particular fascination Many will remember the goings on at such earnest establishments as Tom Brown s Rugby St Dominic s Greyfriars the Chalet School Malory Towers and Linbury Court In the second part of the twentieth century with more liberal social attitudes and the advent of secondary education for all these moral tales lost their appeal and the school story very nearly died out More recently however a new generation of compromised schoolboy and schoolgirl heroes Pennington Tyke Tiler Harry Potter and Millie Roads have given it a new and challenging relevance Focusing mainly on novels written for young people *From Morality to Mayhem* charts the fall and rise of the school story from the grim accounts of Victorian times to the magic and mayhem of our own age In doing so it considers how fictional schools not only reflect but sometimes influence real life This captivating study will appeal to those interested in children s literature and education both students and the general reader taking us on a not altogether comfortable trip down memory lane **Billy Bunter of Greyfriars School** Frank Richards, R. J. Macdonald, 1950 **The Great British Dream Factory** Dominic Sandbrook, 2015-10-01 SPECTATOR BOOKS OF THE YEAR 2015 Britain s empire has gone Our manufacturing base is a shadow of its former self the Royal Navy has been reduced to a skeleton In military diplomatic and economic terms we no longer matter as we once did And yet there is still one area in which we can legitimately claim superpower status our popular culture It is extraordinary to think that one British writer J K Rowling has sold more than 400 million books that Doctor Who is watched in almost every developed country in the world that James Bond has been the central character in the longest running film series in history that *The Lord of the Rings* is the second best selling novel ever written behind only *A Tale of Two Cities* that the Beatles are still the best selling musical group of all time and that only Shakespeare and the Bible have sold more books than Agatha Christie To put it simply no country on earth relative to its size has contributed more to the modern imagination This is a book about the success and the meaning of Britain s modern popular culture from Bond and the

Beatles to heavy metal and Coronation Street from the Angry Young Men to Harry Potter from Damien Hirst to The X Factor

Billy Bunter's Double Charles Hamilton, Frank Richards, 1962 **Critical Approaches to Food in Children's**

Literature Kara K. Keeling, Scott T. Pollard, 2012-03-20 This book is the first scholarly volume to connect children's literature to the burgeoning discipline of food studies Spanning genres and regions the essays utilize a variety of approaches including archival research cultural studies formalism gender studies post colonialism post structuralism race studies structuralism and theology **Billy Bunter's Benefit** Frank Richards, 1950 Life in Public Schools (RLE Edu L) Geoffrey

Walford, 2012-05-16 Britain's public that is its major independent schools have a conspicuous role in the country's social system and as a result are the subject of a long standing political debate The discussion is generally founded on a stereotyped image of what these school may have been like in the 1950s this book shows how they were in the late 1980s It is based on fieldwork in two major public boarding schools which the author conducted over an extended period and draws on interviews observation and documentary sources to establish a picture of what public school life is actually like for pupils and staff Since the schools were predominantly male preserves the major part of the book describes the social world and experiences of boys and school masters An important section of the book however discusses the introduction of girl pupils the experiences of female teachers and the way schoolmasters wives tend to be drawn into their husbands work Geoffrey Walford's conclusions about life in public schools differ considerably from traditional expectations At the same time he asks whether there really has been a public school revolution His book makes an important contribution to our knowledge of public schools to debates in the sociology of education and to the issues of abolishing or extending the independent sector **Public School**

Literature, Civic Education and the Politics of Male Adolescence Jenny Holt, 2016-12-05 During the nineteenth and early twentieth centuries British society gradually began to see adolescence as a distinct social entity worthy of concentrated study and debate Jenny Holt argues that the social construction of the public schoolboy a figure made ubiquitous by a huge body of fictional biographical and journalistic work had a disproportionate role to play in the development of social perceptions of adolescence and in forming ideas of how young people should be educated to become citizens in an age of increasing democracy With attention to an admirably wide range of popular books as well as examples from the periodical press Jenny Holt begins with a discussion of the ideas of late eighteenth century social radicals and ends with the First World War when the more serious public school literature which sought to involve juvenile readers in complex social and political issues declined suddenly in popularity Along the way Jenny Holt considers the influence of Victorian Evangelical thought Social Darwinism and the early twentieth century National Efficiency movement on concepts of adolescence Whether it is shedding new light on well known texts by Thomas Hughes and Rudyard Kipling providing a fascinating discussion of works written by boys themselves or supplying historical context for the development of the concept of adolescence this book will engage not only scholars of childhood and children's literature but Victorianists and those interested in the history of
