*Vacationing in Dictatorships* Adelina Stefan,2024-12-15 Vacationing in Dictatorships examines the political effects of international tourism in socialist Romania and Francoist Spain in the postwar era Despite sharp economic and political differences

between the two dictatorial regimes at the start of the Cold War significant similarities existed as both states took advantage of international tourism to improve their image abroad and pursued processes of economic modernization to acquire hard currencies By the end of the 1970s though the two countries achieved rather different results in terms of tourism development despite the fact that both shared many features in the 1940s and 1950s By comparing the rise and evolution of international tourism on different sides of the Iron Curtain Adelina Stefan provides a different assessment of the geopolitics of postwar Europe that further refines the Cold War s geographies separating Eastern and Western Europe As a result Vacationing in Dictatorships reveals a new perspective on the Cold War that reveals not only the developmental similarities between Eastern and Southern Europe but also the ideological struggle that pitted socialist East against capitalist West

*Tourism and Colonization in Indochina (1898-1939)* Aline Demay,2015-01-12

Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies. Lesser known as a field of research, the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue. Interestingly, in the colonial era, tourism was one element of the policies used by the colonial power to highlight its colony. The use of tourist activities for political ends was first confirmed in an October 2, 1922 circular composed by the Minister of the Colonies, Albert Sarraut. This circular required all French overseas territories to organize and develop the tourism sector because, along with its economic benefits, the tourist of today can be the colonist of tomorrow. This theme, along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists, also contributes to sanitary, environmental, and planning questions as well as issues concerning the construction of national sentiment. How did tourism develop in a territory during the period of colonial expansion? How are tourism and colonization related? What connections can be found between the two? Using archives and tourist publications, this book marks an unprecedented work of research into the enactment of tourism in Indochina. It places the establishment of tourism in this former French colony along with the tourism policies of Metropolitan France and the attempts to reproduce the organizations established in the Dutch East Indies and in Japan. The book, which focuses on events in the period from the turn of the twentieth century to the eve of the Second World War, analyses the transfer of European tourism practices to Indochina, their establishment, their integration with policies of valorisation in the 1920s, their spatial consequences, and the communication established by the state to promote Indochina as a tourist destination for both Indochinese and foreign tourists. Autonomies et indépendances, 2016.

La publication des actes du colloque qui s'est tenu à Lyon en juin 2015 met en lumière la montée en puissance de mouvements indépendantistes et de revendications identitaires dans différentes régions du monde globalisé contemporain. En prenant comme point de départ le référendum catalan de 2014, les discussions ont abordé plusieurs versants du séparatisme catalan, le référendum pour l'autodétermination en Crimée, les revendications identitaires en Nouvelle Zélande, ainsi que les efforts pour arriver aux accords de paix en Irlande du Nord. D'autre part, il est intéressant de constater la perte de vitesse de certaines minorités linguistiques en France ou le cas de minorités russophones dans les pays baltes. Finalement, cet ouvrage pose les questions de l'identité nationale, des fondements culturels, linguistiques, historiques ou économiques des nationalismes du XXI<sup>e</sup> siècle.
