Holt Chemistry Ralph Thomas Myers,2004 *The Argument of Mathematics* Andrew Aberdein,Ian J Dove,2013-07-01
Written by experts in the field this volume presents a comprehensive investigation into the relationship between argumentation theory and the philosophy of mathematical practice Argumentation theory studies reasoning and argument and especially those aspects not addressed or not addressed well by formal deduction The philosophy of mathematical practice diverges from mainstream philosophy of mathematics in the emphasis it places on what the majority of working mathematicians actually do rather than on mathematical foundations The book begins by first challenging the assumption that there is no role for informal logic in mathematics Next it details the usefulness of argumentation theory in the understanding of mathematical practice offering an impressively diverse set of examples covering the history of mathematics mathematics education and perhaps surprisingly formal proof verification From there the book demonstrates that mathematics also offers a valuable testbed for argumentation theory Coverage concludes by defending attention to mathematical argumentation as the basis for new perspectives on the philosophy of mathematics *Science Spectrum* Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2003-03 The Publishers Weekly ,1911 **The American Catalog** ,1885 *Publishers' Weekly* ,1876 *The United States Catalog* George Flavel Danforth,Marion Effie Potter,1900 **The School Journal** ,1904 **The American Catalogue** ,1908 American national trade bibliography El-Hi Textbooks & Serials in Print, 2000 ,2000 *Catalog of Copyright Entries.
