The instructions contained in this service manual are for the information and guidance of the servicemen who are responsible for overhaul and repair of the machine.

Throughout this manual the use of the terms "left", "right", "front" and "rear" must be understood to avoid confusion when following instructions. These terms indicate the sides of the

vehicle when facing forward in the operator's seat.

Due to a continuous program of research and development, some procedures, specifications and parts may be altered in a constant effort to improve the machines. Some illustrations are of a general application and may not show component parts accurately in all details.
