

P R E F A C E

In this booklet we have briefly gathered the main principles covering this car, together with informations for the knowledge and for the normal operations of use and maintenance of the car.

In order to obtain the best results from the car as far as minimum cost, long life and best performance are concerned, one should bear in mind the suggestions given in this book.

For those operations and repairs not easily done with normal tools at one's disposal (supplied with an ordinary tool kit), as well for complete or partial overhauling, we suggest those Owners, in their own interest, to avail themselves of the services of our Agents who will look to the prompt, accurate and rational execution of any job of repair or overhauling.

All spare parts must be original for the best functioning results. Engine and chassis numbers must be given when ordering spares.

D A T A F O R I D E N T I F I C A T I O N O F A V E H I C L E

Each car is identified by special numbers, i.e.:

A M . 101 .  

The chassis serial number is stamped on the right hand side of the cross member and on both sides of this number appear the Maserati trade mark. The engine number is stamped on the clutch housing near the starting motor. These numbers, for easy reading, are repeated on two plaques mounted on the radiator shroud, and are the only ones suitable both for identification and sale of the car. They also appear on the certificate of origin and on the registration certificate.

S P E C I F I C A T I O N S

Number of cylinders	6 in line
Bore and stroke	(3.38x3.93 inch.) 86x100 mm.
Individual cylinder capacity (35.4 cu. inch.)	580.8 cc.
Total capacity (212 cu. inch.)	3485.29 cc.
Max. power at 5500 revs/min	36 CV.
Taxable power	33.8 CV.

Cylinder block is of light alloy with liners of special cast iron.

Cylinder head is made of a light alloy with overhead valves, after the valve seats have been inserted.

Combustion chambers are hemispherical.
