Scientific and Technical Aerospace Reports ,1989 **Advancing Supervision in Clinically Based Teacher Education** Rebecca West Burns,Laura Baecher,Jennifer K. McCorvey,2022-02-01 Supervision in teacher education is entering an exciting time In the last decade national reports calling for the transformation of teacher preparation have advocated for greater school university collaboration and increased clinical preparation of teachers AACTE 2018 NCATE 2010 Thus institutions with teacher preparation should be increasingly concerned with the clinical component of their teacher certification programs AACTE 2010 2018 NCATE 2001 NEA 2014 However supervision in teacher preparation has historically been held in low regard Beck Feiman Nemser 2001 The Holmes Group 1986 Hoover O Shea Soder Burns Jacobs Darling Hammond 2014 Gimbert Lee 2011 In fact university supervisors may be the most undervalued actors in the entire teacher preparation equation when one considers the knowledge skills and dispositions they must have to teach about teaching in the field Burns NCATE 2010 Slick 1998 Zeichner 1992 2005 These practices are incredibly problematic for actualizing clinically based teacher education Thus the road to transforming teacher education must involve addressing such long standing misperceptions about what supervision is what purpose it serves and how it can be renewed from an afterthought to become the driving engine of high quality teacher preparation Advancing Supervision in Clinically Based Teacher Education Advances Opportunities and Explorations aims to elevate supervision and supervisors as undervalued actors by disseminating high quality manuscripts on this critical area of study The chapters in this book tackle the persistent issue of devaluing and marginalizing supervision in some institutions of higher education by sharing current research illuminating challenges of supervising in the current high stakes accountability climate and offering innovative ideas that can improve supervision in clinically based teacher education Environmental Science for Grades 6-12 Jorge Valenzuela,James Fester,2022-08-15 Apply high quality project based learning strategies to create lessons and units that help students solve a variety of urgent environmental problems Environmental science ES education is essential to preparing today s students for the future We must create opportunities for hands on investigations that explore complex environmental problems in order to find solutions and meet the challenges of our changing world Educators looking to bring ES focused experiences to their students can turn to technology and social emotional learning SEL strategies to connect students with real world situations

and citizen science opportunities while fostering empathy and a love for the natural world Project based learning PBL with its emphasis on inquiry and authentic challenges can be an effective approach to teaching ES Those new to PBL may not feel they have adequate training Likewise teachers who haven't taught ES may question how to incorporate it into their curriculum This book addresses both situations providing practical guidance for teachers along with examples of technology rich learner centered student projects addressing timely topics such as sustainability human impact and climate change This book Helps teachers design learning experiences that model authentic problems and processes practiced by scientists and engineers to prepare students for future careers in science Addresses diversity equity and inclusion in ES and shares resources and strategies for addressing racial equity in ES Introduces facilitation techniques that redefine the teacher's traditional role as one that supports increased student agency the development of critical thinking skills and an expanded awareness of their place in the global community Includes a chapter that focuses on applying the principles and strategies shared in the book in an online learning environment Addresses Next Generation Science Standards NGSS topics in environmental science and is aligned to the ISTE Standards for Educators PBL is one of the best ways for students to explore complex processes and concepts and this book will help teachers leverage this approach to empower students to take action toward a better future and world Annual Report Carnegie Foundation for the Advancement of Teaching,1910 **Tep Vol 31-N1** Patrick M. Jenlink,Teacher Education and Practice,2018-01-12 Teacher Education and Practice a peer refereed journal is dedicated to the encouragement and the dissemination of research and scholarship related to professional education The journal is concerned in the broadest sense with teacher preparation practice and policy issues related to the teaching profession as well as being concerned with learning in the school setting The journal also serves as a forum for the exchange of diverse ideas and points of view within these purposes As a forum the journal offers a public space in which to critically examine current discourse and practice as well as engage in generative dialogue Alternative forms of inquiry and representation are invited and authors from a variety of backgrounds and diverse perspectives are encouraged to contribute Teacher Education Practice is published by Rowman Littlefield **U.S. Government Research Reports** ,1964
