L. Sharma,2009-12 This book focuses on management in school administration It explains that school administrators play a vital role in the success of a school Therefore it is of the utmost importance that these leaders and future school leaders

understand how to be integrative thinkers It has been proven that integrative thinkers are more effective leaders and effective leaders create successful work environments Further it elaborates on school based management which involves the formal change in the structures of school governance that leads to a more democratic administrative approach in which planning and decision making are devolved to the individual school and role of principal where the conceptual notion at work here is that of creating a bridge between the performance field and a practice field It also emphasizes on superintendent preparation and training school leadership preparation etc

Culturally Responsive Assessment in Classrooms and Large-Scale Contexts Carla M. Evans, Catherine S. Taylor, 2025-03-10 Culturally Responsive Assessment in Classrooms and Large Scale Contexts explores how scholars and professionals in educational measurement and assessment can use the unique cultural and social identities of students to shape assessment purpose design implementation use and validation processes Despite the sheer diversity of student populations in the United States the tools used to understand their performance and progress have not substantively changed in decades Large scale testing and related policies still privilege culturally neutral test content standardization and comparability Classroom assessments often mimic these procedures even though rich tasks and activities could easily be incorporated into curriculum and instruction to allow students to see themselves their interests communities beliefs and backgrounds represented and valued This book collects the theory research and best practices that are essential to ensuring cultural responsiveness in classroom assessment and standardized testing procedures policies and practices Chapters by assessment and measurement experts along with scholars who are experts in sociocultural learning theory philosophy of education critical theories multilingual education and Indigenous education summarize findings from existing research and suggest how future research can move classroom and industry practice as well as federal state and local policy forward

Investigating Light and Shadow With Young Children (Ages 3-8) Beth Dykstra Van Meeteren, 2022 Children are intrigued by switches that power a light source and by items that reflect light and sparkle and they take notice of personal shadows cast on the playground Many fields in STEM draw upon understanding of light and shadow such as astronomy biology engineering architecture and more This second volume in the STEM for Our Youngest Learners Series shows teachers how to engage children ages 3 8 with light and shadow in a playful way building an early foundation for the later more complex study of this phenomena and possibly piquing the curiosity of children that will ultimately lead to professions within the field of STEM The text offers guidance for integrating literacy learning and investigations and for building partnerships with administrators Each volume in this new series includes vignettes showing educators and children engaging in inquiry learning guidance for selecting materials and arranging the learning environment modifications and accommodations for diverse learners establishing adult learning communities to support professional development and more
