

The background of the book cover is a dark, night-time scene filled with numerous floating lanterns. The lanterns are made of a translucent, light-colored material, possibly paper or fabric, and are illuminated from within, casting a warm, golden-yellow glow. They are scattered across the frame, with some appearing larger and closer, and others smaller and further away, creating a sense of depth and movement. The overall atmosphere is serene and contemplative.

## **Financial Accounting Ifrs Edition Ppt:**

The Routledge Companion to Accounting, Reporting and Regulation Carien van Mourik, Peter Walton, 2013-10-01

Financial accounting reporting and regulation is a vast subject area of huge global importance with interest rising significantly in the light of the ongoing global financial crisis. The authors begin with a broad overview of the subject of accounting setting the stage for a discussion on the theoretical and practical issues and debates regarding financial reporting which are expanded on in the second part of the book. This includes how to define the reporting entity recognition and measurement of the elements of financial statements fair values in financial reporting and the costs and benefits of disclosure. The third part assesses the interest need and theories behind the accounting reporting and regulation industry while parts four and five look at the institutional social and economic aspects with issues such as accounting for environmental management and accounting regulation and financial reporting in Islamic countries both issues of ever increasing importance. This authoritative Companion presents a broad overview of the state of these disciplines today and will provide a comprehensive reference source for students and academics involved in accounting regulation and reporting.

Assessment of Accounting Evaluation Practices Ibrahim Mert, 2022-05-07 The book describes the historical evolution and development of accounting theories and principles. Value and valuation have been reviewed extensively. The author provides a detailed comparison between historic and fair value accounting. A comprehensive review of the literature and researchers' opinions about measurement fair value and historical cost value will enable the readers to understand the concepts in detail. Additionally, the book includes case studies evaluating the accounting practices in Turkey and Romania to illustrate how these concepts are implemented in practice. The reader will obtain a good understanding of the local nationalized accounting systems and up to what extent countries have adapted to IFRS. The book discusses the usage of IT tools in accounting and analyses the impact of information technology such as big data, artificial intelligence and data analytics in the field of accounting.
