Brebbia, J.L. Miralles i Garcia, V. de Esteban Chapapria, 2015-06-02. Urban Transport XXI contains the proceedings of the 21st International Conference on Urban Transport and the Environment. The series of annual conferences organised by the Wessex Institute was first held in 1995. Transportation in urban areas with its related environmental and social impacts is a topic of significant concern for policymakers in both municipal and central government and for the urban citizens who need effective and efficient transport systems. Urban transport systems require considerable studies to devise and then safeguard their operational use, maintenance and safety. Transportation systems produce significant environmental impacts and can enhance or degrade the quality of life in urban centres. Clearly the challenge of providing effective and efficient transport systems in urban settings remains an acute concern with financial, political and environmental constraints limiting the ability of transport system planners and operators to deliver the high quality outcomes expected by the public. Papers cover such topics as Urban Transport Planning and Management, Urban Transport Strategies, Public Transport Systems, Environmental Aspects, Economic and Social Impact, Safety and Security, Travel Behaviour Studies, Customer Satisfaction, Transportation Modelling and Simulation, Infrastructure Development, Intelligent and Advanced Transport Systems, Transportation Integration, City Logistics, Resilience and Inter-modal Transport Systems, Mass Transport Strategies, Social Impacts, Freight Transport, Railway Systems, Transport Governance and Administration, Port and City Mobility and Public Space, Life Cycle Management. Power Through James Longley, 2025-04-10. Going to prison changed one man's life. It helped him become a multi-millionaire. James Longley grew up in a working class family in the East Midlands. He dreamed of becoming a professional footballer and had trials with Leicester City and Scunthorpe United but an injury put an end to that. He drifted from job to job then joined the RAF. After a night's drinking in 2002 he got into an argument with a taxi driver and ended up hitting him. He was convicted of a racist assault and given an eight-month prison sentence. Upon his release he borrowed some money and set up a taxi company. A customer he picked up one evening persuaded James to join him in an energy switching business he had just started. The business grew quickly and within ten years employed seventy people. James eventually bought his benefactor out and in 2018 sold the business for GBP15 million. He has now set up a charity to help prisoners and ex-prisoners learn entrepreneurship skills and to break the cycle of reoffending. His inspiring story shows that if you hit rock bottom in life it's not the end of everything. You can still achieve success and then pay it forward. **Ford Transit** Peter Lee, 2015-03-23. A
