

GIMME FIVE

INSTRUCTIONS

Object

The object of GIMME FIVE is for a player (or team) to align five chips in a row on the gameboard to form a "convoy." The first player or team to create three convoys wins!

TWO PLAYERS

Each player should sit on opposite sides of the gameboard. Distribute all 50 black chips to one player and all 50 red chips to the other player.

FOUR OR SIX PLAYERS

Divide the players into the Black Team and the Red Team. Distribute the black chips to the Black Team members and the red chips to the Red Team members. Players from each team should alternate seating so that a Red Team player's turn always follows a Black Team player's turn, and vice versa. Players on the same team may not view each other's cards or consult in any way during the game.

The Fun of Cards
The Excitement of Bingo
The Strategy of Dominoes

GIMME FIVE is a fun and exciting game for all members of the family and recommended for players from age 8 to adult. Gimme Five can be played by two, four or six people.

Includes: High-quality gameboard, two decks of cards and 100 chips.

How To Play Gimme Five

1. Remove the pawns and shuffle the **two decks** together. Each player draws a card. The player with the highest value card (low through ace) deals. Return all of the cards to the deck and reshuffle.
2. The dealer deals five cards to each player. The remaining cards are placed face down in a draw pile.
3. The player to the dealer's left begins the game by playing one card from his hand, saying the name loud up in front of him.
4. That player then places his color of chips on one of the gameboard squares (on either side of the board) that corresponds to the card just played.
5. A player's turn ends when that player draws a new card from the draw pile to replenish his hand to five cards. If a player forgets to draw a new card at the end of his turn, then he must wait until the beginning of his next turn to draw the new card.
6. Play continues clockwise as each player takes turns, placing one chip on the board for each card played.

Special Rules

JACK ATTACKS

Please note that there are NO jack squares on the gameboard. Jack cards serve two very important functions in GIMME FIVE...

♦ ONE-EYED JACKS ♦

By playing a one-eyed jack (jack of spades or hearts) during a turn, a player can remove any one of the opposing team's chips from the gameboard (except chips protected in a "convoy"). However, the attacking player may not place any of his chips in the newly vacated square, or any other square, until his next turn.

♦ TWO-EYED JACKS ♦

By playing a two-eyed jack (jack of clubs or diamonds) during a turn, a player can place one of his team's chips on ANY empty square on the gameboard.

CONVOYS

A "convoy" is a row (horizontal, vertical or diagonal) of five chips of the same color and can start anywhere on the board. When a player creates a convoy, he should yell "Gimme Five!" to officially warn the other players. Once a convoy has been established, it is protected from a "Jack Attack," and the chips cannot be removed by a one-eyed jack.

If there are more than five chips in the line, the player must specify which five chips constitute the convoy. (Suggestion: Try "crowning" your convoys with coins, buttons, extra chips or any other objects to differentiate them on the gameboard from the other chips.) Adding chips to the end of a convoy offers no advantage; however, convoys MAY cross using one corner chip for both convoys.

JOKERS

Joker spaces are located in the four corners of the gameboard. The joker cards are not used in the game; the joker spaces may be used as "free" spaces for a convoy of either color. The joker spaces MUST remain uncovered throughout the game, thus, the same joker space may be used by both teams simultaneously to form a convoy!

DEAD CARDS

Because "Jack Attacks" fill squares on the gameboard that often leave the corresponding cards useless or "dead," a player has the option to play a "dead" card and not place a chip on the board. The player then draws a new card, but must wait until his next turn to make a play.

DRAW PILE DEPLETION

If the draw pile is depleted before a winner is declared, the remaining cards are played from each player's hand in turn until one team wins. If still no team can complete three convoys, then the team with the most convoys wins. On rare occasion, this doesn't break the tie, the game is considered a stalemate.
