Tension on the String... Mark R. Baker, 2012-10-08 There are those among us hunters who revel in the minimalistic pursuit of wild animals using the most rudimentary of tools and seeking out the whole of the experience up close and personal and as intimately involved with our prey as we possibly can be This experience rewards us with the greatest sense of accomplishment and challenge and connects us directly with our forefathers and ancient pasts It too cements our admiration and awe for the wild places and animals we share this journey with along the way Classic Bowhunting is our vehicle in this journey a completely different pathway of regression rather than the technological domination over mother nature and our inadequacies in seeking and taking our prey This acceptance of the challenges enhances our immersion and participation into the wild and natural world and replenishes our spirit Enjoy adventures with real stick and string appeal in some of the wildest country in North America Building Bridges Through Sensory Integration Ellen Yack, Shirley

Sutton, Paula Aquilla, 2003-08 A useful practical guide for professionals parents teachers and other caregivers It presents detailed assessment tools as well as consistent strategies for managing challenging behavior Successful sensory integration techniques include advice for a wide range of specific problems for adapting home school and childcare environments and creative suggestions for activities equipment and resources
