Cudd, L. de Witte, 2017-09-05 The lives of people with disabilities are complex and various and there are many situations where technology particularly assistive technology already makes a real difference It is clear that smart phone and tablet computer based solutions continue to enhance the independence of many users but it is also important that more traditional assistive technologies and services are not forgotten or neglected This book presents the proceedings of the 14th conference of the Association for the Advancement of Assistive Technology in Europe AAATE 2017 entitled Harnessing the power of technology to improve lives held in Sheffield UK in September 2017 This 4 day event about assistive technologies AT highlights the association's interest in innovating not only technology but also services and addresses the global challenge of meeting the
