Supervising Conflict Heather McGhee Peggs, 2023-04-28 Cultivating respectful and productive academic relationships is a priority within higher education What can faculty do when conflict disrupts research progress and strains the supervisor student relationship *Supervising Conflict* offers practical advice and tools to help faculty identify and actively respond to the most common grad school concerns the everyday conflicts Drawing on data collected over four years at a large research intensive university in Canada Heather McGhee Peggs provides faculty with a map to where issues are likely to emerge based on hundreds of coaching conversations with faculty and students While ideally every campus would have a dispute resolution office and a graduate peer support team to help individuals navigate conflict the reality is that faculty are often managing complex and difficult situations on their own This unique resource combines negotiation and fair complaints handling principles with insights from a multidisciplinary graduate peer team and highlights the critical role that equitable restorative and trauma informed approaches can play in the emergence and resolution of conflict This book includes opportunities for self reflection real life case studies and activities for professional faculty development *Supervising Conflict* guides administrators seeking to address graduate concerns earlier and more effectively at a systemic level Purity, Sacrifice, and the Temple Jonathan Klawans, 2006 Ancient Jewish sacrifice has long been misunderstood Some find in sacrifice the key to the mysterious and violent origins of human culture Others see these cultic rituals as merely the fossilized vestiges of primitive superstition Some believe that ancient Jewish sacrifice was doomed from the start destined to be replaced by the Christian eucharist Others think that the temple was fated to be superseded by the synagogue In *Purity Sacrifice and the Temple* Jonathan Klawans demonstrates that these supersessionist ideologies have prevented scholars from recognizing the Jerusalem temple as a powerful source of meaning and symbolism to the ancient Jews who worshiped there Klawans exposes and counters such ideologies by reviewing the theoretical literature on sacrifice and taking a fresh look at a broad range of evidence concerning ancient Jewish attitudes toward the temple and its sacrificial cult The first step toward reaching a more balanced view is to integrate the study of sacrifice with the study of purity a ritual structure that has commonly been understood as symbolic by scholars and laypeople alike The second step is to rehabilitate sacrificial metaphors with the understanding that these metaphors are windows into the ways sacrifice was understood by ancient Jews By taking these steps and by removing contemporary religious and cultural biases Klawans allows us to better understand what sacrifice meant to the early communities who practiced it Armed with this new understanding Klawans reevaluates the ideas about the temple articulated in a wide array of ancient sources including Josephus Philo Pseudepigrapha the Dead Sea Scrolls New Testament and Rabbinic literature Klawans mines these sources with an eye toward illuminating the symbolic meanings of sacrifice for ancient Jews Along the way he reconsiders the ostensible rejection of the cult by the biblical prophets the Qumran sect and Jesus While these figures may have seen the temple in their time as tainted or even defiled

Klawans argues they too like practically all ancient Jews believed in the cult accepted its symbolic significance and hoped for its ultimate efficacy **I Don't Just Work Here** Felicia Joy, Elena Grotto, 2024-02-13 Work isn't what it used to be Leaders need a field guide that equips them with what to say and do as they face the new culture expectations of today's employees Many employees now show up for work not just to do their jobs but also to discover debate and digest important social issues A growing number of workers want to have an impact in the world and their preferences are a prompt for employers to be more mindful of the role of business in driving societal change starting with what people experience at work Felicia Joy and Elena Grotto experts on behavioral science business strategy and organizational culture share practical guidance to help organizations rise to these new standards by advancing seven behaviors including the surprising and perhaps most important new business skill for high performing cultures forgiveness Managers today are asked to operate as both business leaders and community leaders within the workplace and the latter skillset is new to many **I Don't Just Work Here** helps managers leverage culture to bolster business results as they replace anxiety with confidence and lead with greater purpose in providing the expanded support employees need to develop and perform Organizations that take heed elevate people managers invest in building a strategic culture and lead with clear values and behaviors are more likely to have a decisive competitive advantage and greater business impact for years to come **Understanding New Perspectives of**

Spirituality Edie Lanphar, Agata Wilczek, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 This book deals with the rapidly developing field of spirituality Although having a singularity of focus the chapters have been written by a cross cultural and international set of researchers who discuss critical issues from an interdisciplinary perspective Thus while a broad range of critical aspects emerge the chapters are threaded together by the concept of spirituality as a lone walk While alone the spiritual journey is also deeply connected to others As a deeply human experience the chapters in this book therefore reflect the prismatic viewpoints that form the understandings and experiences of the spiritual walk This book challenges the reader to start to understand the apparent ambiguity this appears to bring to researchers and practitioners Rather than a roadblock to understanding the multiple frames and facets this brings it is instead a rich field for the exploration of the human condition *St. Nicholas* Mary Mapes Dodge, 1910 **The**
