*Topical Preaching in a Complex World* Sam Chan, Malcolm Gill, 2021-12-07 Be Equipped to Prepare and Deliver Engaging Biblical and Effective Topical Sermons Sooner or later every preacher will come upon a situation where they need to preach a topical sermon Yet few are taught to preach topically Even preachers who are gifted in expositing the Scriptures may struggle to deliver a topical sermon that is engaging culturally relevant and true to the biblical text Worse many pastors worry these messages undermine confidence in the Bible or its authority leading to a human centered rather than a God focused sermon But that doesn t have to be the case In *Topical Preaching in a Complex World* Sam Chan and Malcolm Gill answer these objections and chart a path for how preachers can deliver faithful and effective topical messages First they address the biblical theological and cultural reasons pastors should add topical sermons to their preaching repertoire Then they introduce a straightforward four fold approach for preaching a topical message and answer important questions like these How do you approach a topic with the proper interpretative lens How can you speak to two or more audiences with the same sermon What should you consider theologically culturally and pastorally in your preparation How do you trace the topic back to Christ How can you better connect with your audience Best of all they help readers craft a message that says something people truly need and want to hear Filled with wit humor and wisdom from decades of preaching this book will equip preachers pastors ministry leaders and students to preach relevant biblical and engaging topical sermons Author Sam Chan says Just over a decade ago I was asked by an organization to speak at their end of year dinner They wanted me to address the topic of being a Christian single but I had no idea how to prepare and deliver a topical talk When the night arrived I preached an old three point expository sermon and merely changed the ending to include some application on singleness At best I got some polite comments afterwards At worst people s looks indicated that my biblical talk had little relevance for them They could not have been less fooled by my disingenuous workaround I went home vowing never to repeat that poor performance I felt like the unfaithful servant who had not adequately used what talents had been given to him As a result I have dedicated the last decade of my preaching ministry to overcoming and mastering the art of topical preaching This book is a product of that journey

*Bottled* Sara Byala, 2023-08-01 Travel to virtually any African country and you are likely to find a Coca Cola often a cold one at that *Bottled* asks how this carbonated drink became ubiquitous across the continent and what this reveals about the realities of globalisation development and capitalism *Bottled* is the first assessment of the social commercial and environmental impact of one of the planet s biggest brands and largest corporations in Africa Sara Byala charts the company s century long involvement in everything from recycling and education to the anti apartheid struggle showing that Africans have harnessed Coca Cola in varied expressions of modernity and self

determination this is not a story of American capitalism running amok but rather of a company becoming African bending to consumer power in ways big and small In late capitalism everyone s fates are bound together A beverage in Atlanta and a beverage in Johannesburg pull us all towards the same end narrative This story matters for more than just the local reasons enhancing our understanding of our globalised integrated world Drawing on fieldwork and research in company archives Byala asks a question for our time does Coca Cola s generative work offset the human and planetary costs associated with its growth in the twenty first century      [Tobias on Locks and Insecurity Engineering](#) Marc Weber Tobias,2024-01-22 A must read exploration of lock and physical security from a renowned author and expert In Tobias on Locks and Insecurity Engineering renowned investigative attorney and physical security expert Marc Weber Tobias delivers a comprehensive and insightful exploration of how locks are designed built and ultimately defeated by criminals spies hackers and even lockpickers In the book you ll discover the myriad ways that security experts and bad actors have compromised physical locks using everything from the newest 3D printers to 99 cent ballpoint pens The book explores the origins of different lock designs and the mistakes that design engineers make when they create new locks It explains the countless ways that locks remain at risk for attack The author explains the latest lock designs and technology as well as how to assess whether a specific solution will work for you depending on your individual security requirements and use case You ll also find Ways to differentiate between fatally flawed locks and solid secure options Several relevant and real world case examples of catastrophic lock design failures that led to monetary loss property damage or bodily harm Examinations of lock security from the perspectives of forced entry covert entry and key control An instructive and indispensable roadmap to locks and physical security Tobias on Locks and Insecurity Engineering is the perfect guide for security and information technology professionals design engineers risk managers law enforcement personnel intelligence agents regulators policymakers investigators lawyers and more      **Escape From Cubicle Nation** Pamela Slim,2009-04-30 Pamela Slim a former corporate training manager left her office job twelve years ago to go solo and has enjoyed every bit of it In her groundbreaking book based on her popular blog Escape from Cubicle Nation Slim explores both the emotional issues of leaving the corporate world and the nuts and bolts of launching a business Drawing on her own career as well as stories from her coaching clients and blog readers Slim will help readers weigh their options and make a successful escape if they decide to go for it

**Strategic Thinking** Irene M. Duhaime, Larry Stimpert, Julie Chesley, 2012-03-22 There are many strategy books available in the marketplace for today's student or business professional most of them view strategy from the 10 000 foot level while Strategic Thinking looks at this important business topic through a different lens Written from the perspective of a manager this book builds on theories of managerial and organizational cognition that have had a powerful influence on many business fields over the last two decades As other books on business policy and strategy cover a broad range of topics models frameworks and theories the unique feature of this book is that it covers all this but also focuses on how managers of business firms understand their business environments assess and marshal their firm's resources and strive for advantage in the competitive marketplace It examines the economic structural and managerial explanations for firm performance Offering professors and business people who are intrigued by the ideas introduced in Peter Senge's books ways to apply those ideas and principles in the classroom and in the companies in which they work the book puts managers front and center

*The Corporation in the Twenty-First Century* John Kay, 2025-01-07 A radical reappraisal of the nature and activities of business what it is for and how it works A characteristically acerbic analysis of the archetypal organisational unit of capitalism Andrew Hill Financial Times Best Books of 2024 Business Shortlisted for the 2024 Financial Times and Schrodgers Business Book of the Year Award In the world of Adam Smith and Karl Marx capitalists built and controlled mills and factories That relationship between capital and labor continued in the automobile assembly lines and petrochemical plants of the twentieth century But no longer products and production have dematerialized The goods and services provided by the leading companies of the twenty first century appear on your screen fit in your pocket or occupy your head Ownership of the means of production is a redundant concept Workers are the means of production increasingly they take the plant home Capital is a service bought from a specialist supplier with little influence over customer businesses The professional managers who run modern corporations do not exert authority because they are wealthy they are wealthy because they exert authority John Kay's incisive overhaul of our ideas about business redefines our understanding of successful commercial activity and the corporation and describes how we have come to love the product as we hate the producer This is a brilliant and original work from one of the greatest economists
