Byzantium provides the first complete analysis of the development of the visual expression of medieval Armenian rulership during the years 884-1045 CE. During this period the Armenian rulers had loosened the ties that subjected them to the Arab caliphate but by its end the Byzantine empire had instead become dominant in the region. The influences exerted by these external opposing powers are a major theme in this book. Lynn Jones re-contextualizes the existing royal art and architecture by integrating analyses of contemporary accounts of ceremonial and royal deeds with fresh examinations of the surviving monuments of which the church at Aghtamar with its famous carvings is the prime example. Setting the art and architecture of the period more clearly in its original context, the author reveals the messages these buildings, sculptures and manuscripts were intended to convey by those who created and viewed them. This study provides a new perspective on the complex interactions between a broad range of nationalities, ethnicities and religions, shedding fresh light on the nature of medieval identity. It adds to a growing literature on the eastern neighbours of Byzantium and opens up new issues on the relationship between the Byzantine empire and the Islamic caliphate in the medieval period.

**Stories of Origins in the Bible and Ancient Mediterranean Literature** Guy Darshan, 2023-12-07. In this book Guy Darshan explores stories of origins that lie at the heart of Pentateuchal sources in the context of literature created in neighboring societies of the ancient Mediterranean world. A comparative study, his volume analyses the parallels between Biblical origin stories, the narrative traditions arranged in genealogical sequence that recount the beginnings of humanity and origins of peoples in tandem with ancient Greek genealogical writings from the 7th-5th centuries BCE onwards. He also considers Phoenician and Anatolian sources from the first millennium, several of which have only been published in recent years. This is the first scholarly study to trace the origins of this genre of narrative and the circumstances that led to appearances in the Hebrew Bible and ancient Mediterranean literature. It sheds new light on our knowledge of the history of literature as well as the interconnections and interrelations between civilizations of the pre-Hellenistic eastern Mediterranean and Near East.

Imagining the Human Condition in Medieval Rome Kristin B. Aavitsland, 2017-07-05. The first monograph on the Vita Humana cycle at Tre Fontane, this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order. Furthermore, it considers the commission of the fresco cycle, the circumstances of its making and its position within the art-historical context of the Roman Duecento. Examining the unusual blend of images in the Vita Humana cycle, this study offers a more nuanced picture of the iconographic repertoire of medieval art. Since the discovery of the frescoes in the 1960s, the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking. Kristin B. Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000. Aavitsland proposes a rationale behind the conception of the fresco cycle, thereby providing a key for

understanding its iconography and shedding new light on thirteenth century Cistercian culture     Breaching Boundaries

Paul Maurice Clogan,1994 *Medievalia et Humanistica* has won worldwide recognition as the first scholarly publication in America to devote itself exclusively to Medieval and Renaissance studies     The Music of Jōji Yuasa Luciana Galliano,2012-03-15 Over the last fifty years the music of Jōji Yuasa has attained the zenith of international musical standards A study of this great Japanese composer is long overdue Persuasive and captivating less easy than that of his lifetime friend Toru Takemitsu Yuasa's music has also been a model for many young composers both from Japan and further afield thanks to the long period he spent teaching composition at the University of California San Diego 1981-1994 This book serves to illuminate aspects of Yuasa's work intricately linked to deep native roots which tend to be more opaque for western and other ears It focusses on various aspects of Yuasa's music as well as on the social anthropological aesthetic and critical contexts that have informed his compositional practice in the context of the postwar Japanese musical world In a continual interior dialogue which includes Jean Paul Sartre and Daisetz T Suzuki Matsuo Bashō and William Faulkner Henry Miller and Motokiyo Zeami Yuasa's avant garde aesthetic project western in conception encounters the productive thought of an unambiguously Japanese aesthetic i.e. that of Zen An analysis of Yuasa's main works will illustrate and complete the picture of Yuasa's world Yuasa's works are placed at the centre of the most original of creative forces in the contemporary music world a place where for Yuasa in the same idea of creativity there has to be an avant garde component     **Górecki** Adrian Thomas,1997-04-24 The Polish composer Henry Górecki born 1933 achieved world wide renown in 1992 when his Third Symphony written in 1976 was recorded on CD and became an international bestseller It is now one of the best known musical compositions of recent years yet Górecki's other music is still relatively little known This study the first detailed account of his works in any language provides biographical information as background to the music and is by a leading enthusiast of Górecki's music Adrian Thomas discusses Górecki's position as leader of the Polish avant garde in the late 1950s and his subsequent discovery of the folk and church music of Old Poland notably that of the Podhale region in southern Poland He describes Górecki's unmistakable musical world from the large orchestral scores *Scontri* *Refrain* the Symphonies and the choral works *Beatus Vir* commissioned by and dedicated to Pope John Paul II to the more modest church songs and folk song arrangements There is a complete list of works since 1955 with details of instrumentation and recordings and a select bibliography     **Michelangelo and the Sistine Chapel** Andrew Graham-Dixon,2009-01-01 The story behind the timeless Renaissance revealed     *Popular Science* ,1994-02 *Popular Science* gives our readers the information and tools to improve their technology and their world The core belief that *Popular Science* and our readers share The future is going to be better and science and technology are the driving forces that will help make it better     *Michelangelo, Selected Scholarship in English: The Sistine Chapel* William E. Wallace,1995 Accessible to readers useful to specialists Much as been written on Michelangelo By 1970 the number of scholarly books and articles exceeded 4 000 approximately a tenth in English

In the past 25 years the literature has grown exponentially with a notable increase in English language publications. The five volume series reproduces some 100 articles in English selected from a broad range of books and journals. The collection is both accessible to the general reader and useful to the specialist offering a representative sample of old and new commentary on the artist and his work. The career of a genius. Articles are arranged chronologically with separate volumes covering the artist's early life and works, the Sistine Chapel ceiling commission associated with San Lorenzo, the tomb of Julius II and other Roman projects, and a final volume devoted to drawings, poetry and miscellaneous studies. Spanning his entire 89 year life, the articles explore Michelangelo's prodigious creativity as an artist, thinker and poet. The sheer quantity of what has been written on Michelangelo can be intimidating; most students have little sense of how to approach or effectively utilize the vast literature. By presenting a varied introduction to a great artist, this collection is a handy reference tool for a wide array of topics, problems and literature.

**The Caedmon Manuscript** Bernard J. Muir, 2023-09-12. The Caedmon Manuscript is one of three extant anthologies of English Christian poetry produced in England before 1000 CE. It is a collection of four religious poems in Old English based on Biblical materials. They have the editorial names Genesis, Exodus, Daniel and Christ and Satan. This edition consists of an Introduction, Bibliography, Codicological and Paleographical Analysis, an Art Historical Commentary and an edition of the four poems.

**Beginning With Genesis** William J. Wright, 2022-06-02. History repeats itself. That is particularly true in the book of Genesis, a book of beginnings which moves from a dark, cold, watery hopelessness through inspiring highs and incredible lows toward faith in the God who is ever present and active in the affairs of the men and women of the selected stories that comprise Genesis. This book explores those ups and downs and demonstrates a pattern that allows us to discern God's love and care despite our disobedience and failure. We also explore why, despite commands to fill the earth and become nations, Adam after the fratricide, Abraham and Isaac only had two children, and examine possible lessons these examples offer.
